The Importance of Preventive Care

Protecting your and your family's health is one of the most important things you can do. Keeping a focus on regular preventive care can help you and your family get and stay healthier.

Preventive care, including regular medical checkups, screenings and immunizations, is important to maintaining your good health. It can help you avoid potentially serious health conditions and/or obtain early diagnosis and treatment. Generally, the sooner your doctor can identify and treat a medical condition, the better the outcome.

Talk with your doctor or other healthcare provider to determine the preventive care services that are appropriate for you and your family. Which services you should receive, and how often you should receive them, will depend on your current health, personal and family medical histories, age and gender, as well as any risk factors.

In addition, be sure to check with your carrier to confirm whether — and how — a particular preventive care service is covered.

Please note: If you are enrolled in a UnitedHealthcare medical plan option, you can review [UnitedHealthcare's preventive care guidelines for children and adults here](#).

Enrolled in the POS or Traditional Indemnity Option? Choose Premium Care Physicians

Choosing a doctor is one of the most important health decisions you will make. If you are enrolled in the POS or Traditional Indemnity option, the UnitedHealth Premium® Program can help.

How the UnitedHealth Premium Program Works

The UnitedHealth Premium Program uses evidence-based medicine and national standardized measures to evaluate physicians in various specialties. When you choose a Premium Care Physician, you can be sure that the doctor meets the program's criteria for providing quality and cost-effective care.

How to Find a Premium Care Physician

Simply log on to www.myuhc.com and select "Find a Provider." Premium Care Physicians will be at the top of your search results. Look for two blue hearts and the words "Premium Care Physician" in the doctor's profile.

Keep in mind: If a doctor does not have a Premium designation, it does not mean that he or she provides a lower standard of care. It could mean that the data available to UnitedHealthcare was not sufficient to include the doctor in the program or that the doctor practices in a specialty not evaluated as a part of the Premium designation program. All doctors who are part of the UnitedHealthcare network must meet rigorous credentialing requirements, which are separate from the Premium program.

Virtual Visits

When you do not feel well, the last thing you want to do is leave the comfort of home to sit in a waiting room. Good news! You don't have to. As part of your UnitedHealthcare medical benefits, you have an alternative for nonemergency care: virtual visits.

A virtual visit lets you see and talk to a doctor from your smartphone, tablet or computer without an appointment, for the same copayment you would pay for an office visit. Most visits take about 10 – 15 minutes. Doctors can write a prescription¹, if needed, that you can pick up at your local pharmacy.

Right Care. Right Place. Right Savings.

Doctor's office. Virtual visit.
Convenience care clinic. Urgent care center. Emergency room. You and your family have more options than ever when you need medical care.

UnitedHealthcare's **Check. Choose. Go.**[®] guide can help you make the right choice for your situation.

[You can access the guide here.](#)

To register for and request a virtual visit:

- **If you are enrolled in the POS or Traditional Indemnity option**, log on to www.myuhc.com. In the center of your home page, you will see “My providers and facilities.” Scroll to the right, select “Virtual Visits: Connect with a Doctor Online” and register for a virtual visit.
- **If you are enrolled in the UnitedHealthcare Group Medicare Advantage PPO**, log on to www.UHCRetiree.com/nokia and choose from provider sites where you can register for a virtual visit.

Once registered, you can request a visit. Pay your portion of the service via credit or debit card according to the terms of your medical plan option. Then, enter a virtual waiting room. During your visit, you can talk to a doctor about your health concerns, symptoms and treatment options.

Voice Identification (ID)

When you call UnitedHealthcare at the number on the back of your member ID card, you can use a voice ID to authenticate yourself going forward. Here is how it works:

During your call, you will have the option to record a voice ID while speaking your date of birth. Then, whenever you call UnitedHealthcare in the future, the system will recognize you when you say your birthdate.

If you prefer not to record a voice ID, no problem! Simply follow the system prompts to authenticate your identity every time you call. The choice is yours.

The myHealthcare Cost Estimator gives you the information you need to make the best decisions for your health **and** your wallet.

The myHealthcare Cost Estimator can help you:

Once you have accessed the myHealthcare Cost Estimator, just search for the condition (for example, back pain) or treatment (for example, physical therapy) for which you want a cost estimate. The myHealthcare Cost Estimator will show you doctors and locations that offer those services in your area. You can also learn about your treatment options, compare estimated costs, see quality and cost-efficiency ratings and map the location of the provider or facility. The cost estimator will even give you a personalized estimate of your out-of-pocket costs, based on your option's applicable deductible, coinsurance and/or out-of-pocket maximum.

Make Managing Your Mail Order Prescriptions Even Easier: Sign Up for Text Message Notifications

When you call Express Scripts member services about the status of a mail order prescription purchase or shipment, or to update your communication preferences, you have the option to receive text message notifications to confirm the receipt of an order by Express Scripts and shipping information.

During your call, you will be asked if you would like to receive text messages regarding your prescriptions. If you reply “Yes,” the Patient Care Advocate will provide all legal disclaimers and send you a confirmation text message. You must confirm by replying YES via text message. Once confirmed, you will receive text messages instead of automated phone calls or emails. If you reply “No,” or if you do not offer a reply, you will not receive the confirmation text and you will continue to receive notifications as you do today.

Express Scripts plans to introduce additional text notifications in the future.

Coming Your Way: Tax Form 1095

As required by the Affordable Care Act (ACA; healthcare reform), employers must provide IRS Form 1095-C to certain (but not all) plan participants each year. The form serves as proof that you met the ACA’s requirement for having qualifying healthcare coverage during the year. If this applies to you, you should expect to receive your 2019 Form 1095-C no later than January 31, 2020.

Form 1095 indicates the months of the year that you (and your dependents, if applicable) were offered or were enrolled in medical coverage during 2019. You may need Form 1095 or the information it includes in order to file your federal tax return for 2019. Nokia cannot offer tax advice, so you might consider consulting a tax advisor for further guidance on Form 1095. (**Please note:** Form 1095 will not replace any state forms you may receive that provide proof of medical insurance.)

New for 2020: New Jersey (NJ) and the District of Columbia (DC) will also require copies of the federal 1095 tax forms (used to report healthcare coverage) for residents during the tax year. For the 2019 tax year, filings are due by March 31, 2020, for NJ and by June 30, 2020, for DC. Nokia has partnered with Alight to ensure compliance with these new healthcare tax filing requirements, and 1095 data will be provided to NJ and DC residents as needed.
