Report of Independent Auditors

To the Employee Benefits Committee of the Lucent Technologies Inc. Pension Plan

We have audited the accompanying financial statements of the Lucent Technologies Inc. Pension Plan, which comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the Lucent Technologies Inc. Pension Plan at December 31, 2014 and 2013, and the changes in its financial status for the year ended December 31, 2014, in conformity with U.S. generally accepted accounting principles.

Supplemental Schedules

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedules of assets (held at end of year) as of December 31, 2014, and reportable transactions for the year then ended, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Notes to Financial Statements

December 31, 2014 (In Thousands)

1. Plan Description

The following description of the Lucent Technologies Inc. Pension Plan (the "Plan" or "LTPP") provides only general information. Participants should refer to the Plan document and the Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan. On December 31, 2005, the Plan participation of all active employees covered by the Plan was transferred to a new defined benefit plan established by Lucent Technologies Inc. (now known as Alcatel-Lucent USA Inc.) (the "Company") – the Lucent Technologies Inc. Retirement Plan (the "LTRP"). Participants in this Plan who were terminated or retired as of December 31, 2005 continued to participate in the Plan. Effective December 31, 2005, the Plan is frozen as to new participants, other than individuals who attain eligibility for a service pension or a disability pension under the provisions of the LTRP who become participants in this Plan on the day following termination of employment. The associated assets and liabilities for such pension benefit will transfer from the LTRP to this Plan. It is intended that no individual who is actively employed by the Company shall be a participant in the Plan after December 31, 2005.

Prior to December 1, 2010, the Plan covered (i) domestic represented and certain non-represented former occupational employees of the Company who terminated employment prior to January 1, 2006 and (ii) domestic represented and non-represented former occupational employees of the Company who terminate employment after December 31, 2005 with a service pension or a disability pension under the provisions of the LTRP and with respect to whom assets and liabilities are transferred from the LTRP to the Plan.

On December 1, 2010, certain participants (and beneficiaries) in the Plan were transferred to the Alcatel-Lucent Retirement Income Plan (the "ALRIP"). Specifically, four groups of participants (and associated surviving spouses, contingent beneficiaries and alternate payees of such participants) were the subject of the transfer: participants who (i) when last actively employed by the Company or an affiliate of the Company that adopted the LTPP for the benefit of its eligible employees (a "Participating Company") were represented for purposes of collective bargaining by unions other than the Communications Workers of America ("CWA") or the International Brotherhood of Electrical Workers ("IBEW"); (ii) when last actively employed by the Company or a Participating Company, were classified by their employer as "Lucent Business Assistants"

Notes to Financial Statements (continued)

(In Thousands)

1. Plan Description (continued)

("LBAs"); (iii) were transferred to the Plan from the AT&T Pension Plan (the "AT&T Plan") and were, when last actively employed by the sponsor of the AT&T Plan or a participating company with respect to that plan, represented for purposes of collective bargaining by unions other than the CWA or the IBEW; and (iv) were transferred to the Plan from the AT&T Plan and were, when last actively employed by the sponsor of the AT&T Plan or a participating company with respect to that plan, classified by their employer as non-represented occupational employees.

Effective January 1, 2011, Business & Technical Associates who attained eligibility for a Disability Pension or Service Pension become participants in the ALRIP rather than this Plan.

On December 1, 2011, certain beneficiaries in the Plan were transferred to the ALRIP. The beneficiaries transferred were surviving spouses and surviving contingent beneficiaries in pay status (i.e., receiving monthly payments after having satisfied the administrative requirements to commence a survivor pension) of deceased participants who died prior to January 1, 2011.

During the period commencing on June 22, 2012 and ending on December 31, 2012 (the "Special Election Window"), certain participants and surviving lawful spouses were offered the opportunity to elect immediate commencement of their deferred vested pension in any form of payment permitted under the Plan, including a lump sum.

On September 27, 2012, in accordance with the Moving Ahead for Progress in the 21st Century Act ("MAP-21"), the Plan's provisions relating to transfers "excess pension assets" under Section 420 of the Internal Revenue Code ("IRC" or "Code") were amended (a) to expand the types of pension asset transfers that could be made by the Company to include transfers for post-retirement group term life insurance benefits or coverage and (b) to extend the provisions' expiration date from December 31, 2013 to December 31, 2021.

On July 29, 2013, the Plan was amended effective as of January 1, 2013 to increase the pension band monthly benefits amounts by 3% for participants who retire on or after January 1, 2013. This amendment is reflected in the December 31, 2013 accumulated plan benefits for the LTRP.

On December 1, 2013, the Plan was amended to transfer assets and obligations of certain participants in the Plan to the ALRIP. Specifically, (i) service pension eligible ("SPE") participants who, when last actively employed, were not represented by the CWA or IBEW;

Notes to Financial Statements (continued)

(In Thousands)

1. Plan Description (continued)

(ii) non-SPE participants; (iii) alternate payees of participants who are in pay status as of September 1, 2013; and (iv) individuals who, as of September 1, 2013, are receiving payment of survivor benefits as the surviving spouses or surviving contingent beneficiaries of deceased participants who died prior to January 1, 2013. Accordingly, during 2013, assets totaling approximately \$1,813,936 and benefit obligations totaling \$969,411 were transferred from the Plan to the ALRIP.

On December 24, 2013, the Plan was amended: (i) to offer a special voluntary termination program – the 2013 Special Voluntary Termination Program ("2013 SVTP") – to certain CWA-represented employees who elected to terminate under the SVTP and receive enhanced pension benefits; and (ii) to reflect the terms of a second program—the 2013 Lewisville, Texas Effects Agreement (the "Lewisville, Texas Effects Agreement")—agreed to by the Company and the CWA. The impact of the 2013 SVTP and the Lewisville, Texas Effects Agreement is reflected in the December 31, 2013 accumulated plan benefits for the LTRP.

On December 24, 2013, the Plan's definition of "Lawful Spouse" was amended. On December 1, 2014, the Plan's definition of "Lawful Spouse" was further amended to reflect Internal Revenue Service ("IRS") Notice 2014-19.

Effective January 1, 2014, the Company amended the Plan to reflect additional offers under the Special Voluntary Termination Program ("2014 SVTP") that occurred during 2014 and to provide for enhanced 2013 SVTP benefits with respect to certain eligible employees. The impact of the 2014 SVTP is reflected in the December 31, 2014 accumulated plan benefits for the LTRP.

On December 19, 2014, the Plan was amended effective as of October 1, 2014 to increase the pension band monthly benefits amounts 3% for participants who retire on or after October 1, 2014. This amendment is reflected in the December 31, 2014 accumulated plan benefits for the LTRP.

During the period commencing on November 3, 2014 and ending on April 30, 2015, certain participants were offered a one-time opportunity to elect immediate commencement of a Disability Replacement Pension Benefit (the "DRP Benefit") equal to the actuarial present value of their monthly disability benefit under the Alcatel-Lucent Long Term Disability Plan for Occupational Employees. Payment of the DRP Benefit for those who timely elected to receive this benefit commenced on May 1, 2015.

Notes to Financial Statements (continued)

(In Thousands)

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are prepared in accordance with U.S. generally accepted accounting principles ("U.S. GAAP").

Contributions and Actuarial Method

Contributions to the Plan are determined on a going-concern basis by an actuarial cost method known as the Accrued Benefit Cost Method. Under this method, the projected benefit for each future event is allocated to each of the participant's years of service. The normal cost is equal to the actuarial present value of the benefits allocated to the current year and the actuarial accrued liability is equal to the actuarial present value of the total benefits allocated to years prior to the current year. The actuarial accrued liability for inactive participants was determined as the actuarial present value of the benefits expected to be paid. No normal costs are payable with respect to these participants. The minimum required contribution and the maximum permissible contributions are then determined as the sum of the normal cost for all employees, plus amortization, if any, on the initial unfunded liability, change in liability due to plan amendments, assumption changes and experience gain or loss.

Under the Pension Protection Act of 2006, plans are required to use the Accrued Benefit Cost Method to determine the actuarial accrued liability based on a limited choice of mortality and interest assumptions. Contributions are determined as the sum of the normal cost and a seven-year amortization of unfunded liabilities.

The Company's funding policy is to contribute such amounts as are determined on an actuarial basis to meet the minimum funding requirements of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), plus such additional amounts as the Company may determine to be appropriate. No contributions were due for the years ended December 31, 2014 and 2013 under the minimum funding requirements of ERISA.

Notes to Financial Statements (continued)

(In Thousands)

2. Summary of Significant Accounting Policies (continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service that employees have rendered to the Company through the valuation date.

Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) beneficiaries of employees who have died. The accumulated plan benefits as of December 31, 2014 and 2013 are based on census data as of those dates. Benefits payable upon retirement, death, disability or withdrawal are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The change in assumptions reflects an increase of \$130,833 due to the change in discount rate and an increase of \$339,171 due to the change in mortality rate.

The mortality table used in determining the actuarial present value of accumulated plan benefits as of December 31, 2014 is Society of Actuaries RP-2014 amounts weighted, blue collar for occupational participants with MP-2014 generational projection scale. This was changed from the mortality assumption as of December 31, 2013 of the RP-2000 Combined Healthy Mortality with Generational Projection based on the Society of Actuaries Scale AA.

Interest assumptions of 4.86% and 5.14% were used to determine the actuarial present values of accumulated plan benefits at December 31, 2014 and 2013, respectively.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make significant estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities and the present value of accumulated plan benefits. These significant estimates include the accumulated plan benefits and the fair value of investments. Actual results could differ from these estimates.

Notes to Financial Statements (continued)

(In Thousands)

2. Summary of Significant Accounting Policies (continued)

The actuarial present value of accumulated plan benefits is reported based on certain estimates and assumptions regarding the future. As of the date of these financial statements, the Company believes these estimates and assumptions concerning matters such as interest rates and participant demographics are reasonable. However, due to the uncertainties inherent in making any estimate or assumption, it is at least reasonably possible that actual results may differ materially from what has been estimated or assumed.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Interplan Transfers, Net

Interplan transfers represent transfers between the ALRIP, LTRP and the Plan. Interplan transfers are recorded on an accrual basis

Mandatory Portability Transfers, Net

Mandatory portability transfers represent transfers attributable to the Mandatory Portability Agreement, effective January 1, 1985, between and among AT&T, former affiliates and certain other companies, and the Plan. The accumulated benefit obligation at year end does not include the benefits payable to the mandatory portability population. These transfers are recorded on an accrual basis.

Investment and Administrative Expenses

Investment and certain administrative expenses of the Plan are paid by the Plan.

Pension Benefit Guaranty Corporation ("PBGC") Premiums

The PBGC was created by ERISA to provide timely and uninterrupted payment of pension benefits. Premium expenses of the Plan are paid by the Plan.

2. Summary of Significant Accounting Policies (continued)

New Accounting Pronouncements

In May 2015, the FASB issued Accounting Standards Update 2015-07, Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent), (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, Fair Value Measurement. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for entities (other than public business entities) for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early application is permitted. Plan management is currently evaluating the effect that the provisions of ASU 2015-07 will have on the Plan's financial statements.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I of the ASU eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of the ASU eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III of the ASU allows a plan with a fiscal year end that doesn't coincide with the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. The ASU is effective for fiscal years beginning after December 15, 2015. Parts I and II are to be applied retrospectively. Part III is to be applied prospectively. Plans can early adopt any of the ASU's three parts without early adopting the other parts. Plan management is currently evaluating the effect that Part II of ASU 2015-12 will have on the Plan's financial statements. Parts I and III are not applicable to the Plan.

Notes to Financial Statements (continued)

(In Thousands)

3. Tax Status

The Internal Revenue Service (the "IRS") determined, and informed the Company by a letter dated March 20, 2014, that the Plan is designed in accordance with the currently applicable sections of the IRC. Where the Plan Administrator has identified operational errors, the Plan Administrator has indicated that it has taken the necessary steps to bring the Plan's operations into compliance with the Code. Therefore, no provision for income taxes has been made.

Accounting principles generally accepted in the United States require the Plan administrator to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain tax positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

4. Termination Priorities

The Plan may be terminated or amended at any time by the action of the Board of Directors of the Company. Should the Plan terminate at some future time, its net assets may not be available on a pro rata basis to provide participants' benefits. Whether a participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

Subject to conditions set forth in ERISA, in the event of a Plan termination, distributions of the assets available for benefits will occur as follows:

- a. The Plan provides that the net assets available for benefits shall be allocated among the participants and beneficiaries of the Plan in the order provided for in ERISA,
- b. To the extent unfunded vested benefits then exist, ERISA provides that such benefits are payable by the PBGC to participants, up to specified limitations, as described in ERISA, and

Notes to Financial Statements (continued)

(In Thousands)

4. Termination Priorities (continued)

c. To the extent that the net assets available for benefits exceed the amounts to be allocated pursuant to the priorities provided for in ERISA, such amounts will be allocated among participants pursuant to the priorities set forth in the Plan and ERISA.

5. Interest in Lucent Technologies Inc. Master Pension Trust

Substantially all of the Plan's investments are in the Lucent Technologies Inc. Master Pension Trust ("MPT") which was established for the investment of assets of pension plans of the Company. The Bank of New York Mellon ("BNY Mellon" or the "Trustee") is the Trustee and custodian of the MPT. The Trustee is responsible for custodial, recordkeeping and other trustee responsibilities pursuant to the Amended and Restated Defined Benefit Master Trust Agreement.

The MPT is structured with multiple Master Trust Units. Each Master Trust Unit represents a particular asset class sleeve within the MPT. Each Participating Plan owns units of the investment sleeves based on each Participating Plan's asset allocation policy.

As of December 31, 2014, the following plans participate in the MPT:

- (1) the Plan,
- (2) the LTRP, and
- (3) the ALRIP.

Each participating plan has an undivided interest in the MPT's various investment sleeves. At December 31, 2014 and 2013, the Plan's interest in the net assets of the MPT was 34.82% and 35.34%, respectively.

Rebalancing - Occ. Active	_	_	_	_	100%	100%		
Lump Sum Set Aside – Mgt*	100%	_	_	_	_	_		

^{*}The Lump Sum Set Aside – Mgt sleeve was established in August 2014. This sleeve's assets are held in cash and will be used for lump sum payments during 2015.

Effective December 1, 2013, the Company transferred certain non-represented retiree and deferred vested participants from the Plan to the ALRIP. As a result of the transfer of participants, 14.12% of the associated assets were transferred from the Plan to the ALRIP.

In the normal course of business, the MPT enters into contracts that contain indemnification clauses. The MPT's maximum exposure under these arrangements is unknown as this would involve future claims that may be against the MPT that have not yet occurred. However, based

Notes to Financial Statements (continued)

(In Thousands)

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

on experience, the MPT expects the risk of loss to be remote and accordingly has not accrued any related liabilities.

The Trustee allocates investment income, realized gains or losses, unrealized appreciation or depreciation and certain investment expenses including management fees to the Participating Plans on the basis of each Participating Plan's interest in the MPT. Alcatel-Lucent Investment Management Corporation ("ALIMCO") directs the Trustee to redeem units from the MPT to provide proper liquidity for each Participating Plan's benefit payments and expenses.

Investment transactions are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date except for certain dividends from non-U.S. securities which are recorded as soon as the information is available after the ex-dividend date. Realized gains or losses on the sale of all securities except for futures contracts are determined based on average cost. Distributions from limited partnership investments are treated as income, realized gain or loss or return of capital based on information reported by the partnership. Net investment income from real estate and limited partnerships are recorded when distribution notices are received from the real estate properties or limited partnership.

Investment Income

The following table presents the investment income for the MPT for the year ended December 31, 2014:

Net appreciation in fair value of investments	\$ 2,497,899
Interest	917,601
Dividends	64,876
Net investment income from real estate	152,177
Net investment income from limited partnerships	55,130
Other income	9,753
Total investment income	\$ 3,697,436

For the year ended December 31, 2014, the net appreciation in fair value of investments in the MPT, including both realized gains and losses and unrealized appreciation/(depreciation), was comprised of the following:

Fixed income securities*1	\$ 1,939,575
Common stock and other equities*	109,067
Real estate* ³	85,356
Limited partnership investments*	332,924
Other investments* ²	30,977
Net appreciation in fair value of investments	\$ 2,497,899

^{*} This table was produced with the asset classifications used in the Department of Labor 5500 filing.

¹ This category includes investment in U.S. Government securities, Corporate Bonds, Bank Debt and Swaps.

² This category includes investment in Foreign Currency and Futures.

This category includes real estate investments as well as certain real estate limited partnership and oil and gas investments.

Investment Valuation

ALIMCO's Valuation Committee (the "Committee") oversees the implementation of the valuation policy. The Committee reviews the custodian's pricing policies and procedures on an annual basis for reasonableness. The Committee also oversees the process of reviewing partnership and commingled fund financial statements where the NAV is used as fair value for partnership investments, that are organized as investment companies or entities that report their holdings at fair value, as well as the fair values provided by Investment Advisors for oil and gas positions and real estate investments. Meetings of the Committee occur on an as needed basis, but at least annually. The Committee is comprised of a group of individuals that have differing perspectives on the valuation process and includes staff persons from ALIMCO's Operations, Compliance, Alternative Investments, Public Market Investments groups and the US Chief Investment Officer. The following discusses the custodian's valuation process for specific investments.

Investments in securities traded on a national securities exchange or a listed market such as the NASDAQ National Market System are valued at the last reported sales prices on the valuation date or if no sale was reported on that date, at amounts that the Committee and custodian feel are most indicative of the fair value based on information that may include the last reported bid or ask prices on the principal securities exchanges or listed market on which such securities are traded. Fixed income securities, and securities not traded on an exchange or a listed market, are valued at the bid price or the average of the bid and asked prices on the valuation date obtained from published sources where available, or are valued with consideration of trading activity or any other relevant information, such as independent broker quotations. Fair values of investments in private equity direct investments, publically traded investments and other securities for which market quotations are not readily available, or for which market quotations may be considered unreliable, are estimated in good faith by the Investment Advisors, and/or ALIMCO under consistently applied procedures deemed to be appropriate in the given circumstances. The methods and procedures to fair value these investments may include, but are not limited to the consideration of the following factors: comparisons with prices of comparable or similar securities, obtaining valuation-related information from issuers, using independent third party valuation specialists and pricing models, time value of money, volatility, current market, and contractual prices of the underlying financial instrument, counterparty nonperformance risk, and/or other analytical data relating to the investment and using other available indications of value, as applicable. Because of the inherent uncertainties of valuation, the

Notes to Financial Statements (continued)

(In Thousands)

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

appraised values and estimated fair values reflected in the financial statements may differ from values that would be determined by negotiation between parties in a sales transaction, and the differences could be material.

Derivative instruments held in the MPT are recorded at fair value. Fair value of derivative instruments is determined using quoted market prices when available. Otherwise, fair value is based on pricing models that consider the time value of money, volatility, and the current market or contractual prices of the underlying financial instruments.

Investments in real estate consist principally of wholly owned property investments, the fair values of which are reviewed on a quarterly basis by third party discretionary Investment Advisors. These investments are valued at amounts based predominantly upon appraisal reports prepared by independent real estate appraisers on at least an annual basis. The values included in the independent real estate appraisal reports are derived from discounted cash flow models.

Private equity investments and certain real estate investments are made through limited partnerships that, in turn, invest in venture capital, leveraged buyouts, real estate, private placements and other investments where the structure, risk profile and return potential differ from traditional equity and fixed income investments. Absolute return investments are typically made through limited partnerships which are hedge funds that utilize a broad array of investment strategies, including but not limited to market neutral, event driven, equity long/short, global macro, or a combination of all of these strategies. Investments in common and collective trusts consist of units owned in commingled fund investment vehicles which are primarily invested in domestic and emerging market equity securities. The MPT owns units or shares of these investment vehicles representing the MPT's interest in the commingled fund.

The limited partnerships and commingled funds report net asset values ("NAV") of the MPT's investments in such vehicles on a periodic basis to the MPT. ALIMCO performs due diligence of various degrees on these limited partnerships and commingled funds. Investments in limited partnerships and commingled funds are carried at fair value, which generally represent the MPT's proportionate share of net assets of limited partnerships that are organized as investment companies or that report their holdings at fair value and commingled funds as valued by the general partners or investment managers of these entities. For those limited partnerships that do not carry their holdings at fair value, ALIMCO will estimate fair value as described below. ALIMCO follows its valuation policy, and other due diligence and investment procedures, which

Notes to Financial Statements (continued)

(In Thousands)

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

includes evaluating information provided by management of these vehicles, to determine that such valuations represent fair value. If ALIMCO determined that such valuations were not fair value, then ALIMCO would provide an estimate of fair value in good faith in accordance with its valuation policy. Due to the inherent uncertainty of valuation for these investment vehicles, ALIMCO's estimate of fair value for these limited partnerships may differ from the values that would have been used had a ready and liquid market existed for such investments, and such differences could be material.

The changes in fair values of the MPT's investments in limited partnerships are recorded as net appreciation/(depreciation) in fair value of investments on the schedule detailing investment income of the MPT. The net asset values reported to MPT by the management of the limited partnerships are net of management fees charged to the MPT's capital account in such limited partnerships.

The fair value of the MPT's assets and liabilities which qualify as financial instruments approximates the carrying amounts presented in the schedule of net assets of the MPT.

The Plan's interest in the MPT exceeded 5% of its net assets available for benefits at December 31, 2014 and 2013. At December 31, 2014 the MPT held two positions that were greater than 5% of the MPT's net assets. The Commingled Pension Trust Fund (Liquidity) of JPMorgan Chase Bank, N.A. was fair valued at \$2,700,279 or 8.56% of total net assets of the MPT; and the Collective Fund Government Short Term Investment Fund managed by BNY Mellon was fair valued at \$1,615,317 or 5.12% of total net assets MPT. These amounts are included in cash and cash equivalents. There was no individual investment that equaled or exceeded 5% of the MPT's net assets at December 31, 2013.

Collateral held by brokers for futures contracts and swap contracts outstanding was \$57,064 and \$67,707 at December 31, 2014 and 2013, respectively. These amounts are included in due from brokers and government and U.S. treasury obligations on the schedule of net assets of the MPT.

At December 31, 2014 and 2013, cash and cash equivalents and cash equivalents held in the 401(h) account were primarily comprised of short term investment funds managed by JP Morgan and BNY Mellon. The MPT considers all highly liquid investment instruments with a maturity of three months or less at the time of purchase to be cash equivalents.

Notes to Financial Statements (continued)

(In Thousands)

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

At December 31, 2014 and 2013, due to/from broker was primarily comprised of margin posted for futures contracts.

Foreign Currency Transactions

Assets and liabilities denominated in a foreign currency are translated into U.S. dollars at the prevailing rates of exchange on the valuation date. Purchases and sales of investments are translated and recorded at rates of exchange prevailing when such investments were purchased or sold. Income and expenses are translated at rates of exchange prevailing when earned or accrued.

The MPT does not isolate that portion of the results of operations resulting from changes in foreign currency exchanges rates on investments from fluctuations arising from changes in the valuation of investments. Accordingly, such foreign currency related gains and losses are included in net appreciation in fair value of investments on the schedule detailing investment income of the MPT

Fair Value of Investments

In accordance with ASC 820, Fair Value Measurement, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in a timely transaction with an independent buyer in the principal market, or in the absence of a principal market, the most advantageous market for the asset or liability at the measurement date (an exit price). ASC 820 requires enhanced classification and disclosures about financial instruments carried at fair value and establishes a fair value hierarchy that prioritizes the inputs used in valuation models and techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical financial instruments (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The inputs are summarized in the three broad levels listed below:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities. The types of investments that are classified at this level typically include equities, futures contracts, certain options and U.S. Treasury obligations.

Notes to Financial Statements (continued)

(In Thousands)

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

Level 2 — Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly (inputs include quoted prices for similar assets or liabilities in active markets, interest rates and yield curves, credit risk assessments, etc.). The types of investments that are classified at this level typically include investment grade corporate bonds, convertible securities, asset backed securities, mortgage-backed securities, government agency securities, forward contracts, certain options, interest rate swaps, and credit default swaps.

Level 3 – Significant unobservable inputs for assets or liabilities. The types of assets and liabilities that are classified at this level include but are not limited to limited partnerships, private placement debentures, certain commingled funds, bank debt and real estate properties.

Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, for example, the risk inherent in a particular valuation technique used to measure fair value including such a pricing model and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable.

Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Furthermore, the fair value hierarchy does not correspond to a financial instrument's relative liquidity in the market or to its level of risk. Management assumes that any transfers between levels occur at the beginning of any period. Management's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the investment. The inputs or methodology used for valuing investments and their classification in the fair value hierarchy are not necessarily an indication of the risk associated with those investments.

Notes to Financial Statements (continued)

(In Thousands)

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

- (a) This category includes investments in hedge funds that invest in both long and short primarily in U.S. common stocks. Management of the hedge funds has the ability to shift its investment positions to different market segments (value/growth), market capitalization (small/large cap) and net long/short exposure as agreed to in the subscription documents of such hedge funds. Investments in this category can be redeemed at any time subject to the redemption notice period of each respective hedge fund. At December 31, 2014 and 2013, this category held 0.10% and 0.67% of assets in side pockets.
- (b) This category includes investments in hedge funds that invest in equities and fixed income to profit from economic, political and government driven events. At December 31, 2014 and 2013, this category held 8.92% and 4.67% of assets in side pockets.
- (c) This category includes investments in hedge funds that pursue multiple strategies to diversify risks and reduce volatility. These multiple strategy hedge funds invest in common stock, fixed income securities, convertibles, distressed debt, merger arbitrage, macro and real estate securities. At December 31, 2014 and 2013, this category held 3.26% and 5.08% of assets in side pockets. At December 31, 2014 and 2013, 39.1% and 39.4% respectively, of the assets in this category are locked up.
- (d) This category includes investments in hedge funds that involve taking simultaneous long and short positions in closely related markets in both equities and fixed income instruments. This category of hedge funds has no investments held in side pockets.
- (e) This category is designed to take advantage of a specific and/or timely investment opportunity due to a market dislocation or similar event. At December 31, 2014 and 2013, 100% of the assets in this category were locked up. It is estimated that the assets will be realized over the next three to five years.
- (f) This category generally refers to strategies that are more directional in nature, although they can shift opportunistically between having a directional bias and a non-directional bias. This category of hedge funds has no investments held in side pockets.
- (g) This category includes oil and gas and real estate funds that invest in the U.S., Europe and Asia. The fair values of the investments in this category have been estimated using the net asset value of the MPT's ownership interest in partners' capital. These investments cannot be redeemed. Distributions from these funds will be received as the underlying investments of the funds are liquidated. It is estimated that the assets of the funds will be liquidated over the next five to ten years.

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

- (h) This category includes venture capital funds that typically invest in equity securities of start-up and growth oriented companies primarily domiciled in the U.S. and Western Europe. The venture capital funds are invested across various sectors including healthcare, information technology, computer hardware, and materials. The fair values of the investments in this category have been estimated using the net asset value of the MPT's pro-rata interest in each fund. These investments cannot be redeemed. Distributions from these funds will be received by the MPT as the underlying assets in each fund are liquidated, typically a period of five to ten years from inception of the funds.
- (i) This category includes buyout funds that typically invest in the equity of mature operating companies primarily domiciled in the U.S. and Western Europe. The buyout funds are invested across various sectors including healthcare, technology, energy, financial and business services, manufacturing, transportation, and consumer. The fair values of the investments in this category have been estimated using the net asset value of the MPT's pro-rata interest in each fund. These investments cannot be redeemed. Distributions from these funds will be received by the MPT as the underlying assets in each fund are liquidated, typically over a period of five to ten years from inception of the funds.
- (j) This category includes fund of funds, debt funds and distressed-oriented funds, structured as private equity vehicles. The special situation funds invest in the debt or equity securities of companies primarily domiciled in the U.S., Western Europe and Asia. The special situations funds are generally sector agnostic, and are invested across a diversified spectrum of industries. The fair value of investments in this category is measured using the aggregate net asset value of the MPT's pro-rata interest in each fund. These investments cannot be redeemed. Distributions are received by the MPT as the underlying assets in each fund are liquidated, typically over a period of five to ten years from inception of the funds.
- (k) This category includes private equity funds that principally make direct investments in the equity securities of privately held companies structured through limited partnerships. The fair value of the investments in this category is measured using the aggregate asset value of the MPT's prorata equity interest in each company. These investments cannot be redeemed. Distributions from these investments will be received by the MPT as the underlying equity interests are liquidated. The liquidation of this category of investments is anticipated to conclude over the next three to five years.

Guarantees and Commitments

ASC 815 Derivative and Hedging requires a seller of credit derivative to disclose (i) the nature and terms of the credit derivative, reasons for entering into the credit derivative, the events or circumstances that would require the seller to perform under the credit derivative, and the current status of the payment/performance risk of the credit derivative, (ii) the maximum potential amount of future payments (undiscounted) the seller could be required to make under the credit derivative, (iii) the fair value of the credit derivative, and (iv) the nature of any recourse provisions and assets held either as collateral or by third parties. It also requires additional disclosures about the current status of the payment/performance risk of a guarantee.

In the normal course of trading activities, the MPT will trade and hold certain derivative contracts which constitute guarantees under U.S. GAAP. Such contracts include written put options and credit default swaps where MPT is providing credit protection on an underlying instrument. For credit default swaps, the credit rating, obtained from external credit agencies, reflects the current status of the payment/performance risk of a credit default swap. Management views performance risk to be high for derivative contracts whose underlying credit ratings are below BBB-.

As of December 31, 2014:

	So	vereign Debt Credit Default Swaps		ngle Name Corporate d Credit Default Swaps		asket of Investment ade Securities Swaps

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

At December 31, 2014, the MPT held one written put option contract that expired in February 2015. The maximum payout for a written put option is limited to the number of contracts written and the related strike prices and amounted to \$78. The fair value of the written put options was (\$8) which is located in options written at fair value on the schedule of net assets of the MPT.

At December 31, 2013, the MPT held three written put option contracts that are expiring at various times between January 2014 and February 2017. The maximum payout for a written put option is limited to the number of contracts written and the related strike prices and amounted to \$772. The fair value of the written put options was (\$752) which is located in options written at fair value on the schedule of net assets of the MPT.

Securities Lending

The MPT participates in an agency securities lending program with BNYMellon Bank, N.A. (BNYMellon Bank), an affiliate of the Master Trustee. The securities lending agreement requires that the MPT receive U.S. Dollar cash or securities issued or guaranteed by the United States Government or its agencies or instrumentalities, or certain sovereign debt securities as collateral for securities on loan. Collateral equaling 102% of the fair value of domestic securities and 105% of the total fair value of non-U.S. securities on loan is required in accordance with the agreement. As of December 31, 2014 and 2013, the fair value of the securities on loan was \$3,552,503 and \$4,846,837, respectively. Such securities are recorded on the schedule of net assets of the MPT. The MPT received collateral from borrowers in the form of cash and securities. The MPT has the ability to repledge (rehypothicate) the cash, however the securities cannot be repledged. As of December 31, 2014 and 2013, the MPT held cash collateral of \$3,153,143 and \$4,484,843, respectively, in connection with loaned securities. The cash collateral was used to enter into repurchase agreements and to purchase various securities consistent with the investment guidelines including asset-backed floating notes, floating rate notes, commercial paper, certificates of deposit and time deposits. The fair value of these investments acquired with the cash collateral are \$3,152,983 and \$4,485,188 at December 31, 2014 and 2013, respectively, and are included in the cash collateral invested in fixed income securities and repurchase agreements on the schedule of net assets of the MPT.

The securities received as collateral for loaned securities which cannot be sold or repledged included U.S. Treasuries and sovereign debt securities with fair values of \$468,113 and \$467,541 at December 31, 2014 and 2013, respectively. Such securities are not reflected in the MPT's

Notes to Financial Statements (continued)

(In Thousands)

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

assets and liabilities. The MPT received interest and securities lending income in the amount of \$8,048 in 2014 from the securities lending program; this income is included in other income on the schedule detailing investment income of the MPT.

Under the repurchase agreements, the MPT acquires a security for cash subject to an obligation by the counterparty to repurchase, and the MPT to resell, the security at an agreed upon price and time. In these transactions, the MPT takes possession of securities collateralizing the repurchase agreement. The collateral is marked to market daily to ensure that the fair value of the assets remains sufficient to protect the MPT in the event of default by the seller. As of December 31, 2014 and 2013, repurchase agreements entered into with cash collateral were carried at \$986,866 and \$851,617, respectively, and the fair value of securities which the MPT held as collateral with respect to such repurchase agreements was \$1,020,707 and \$888,778, respectively. The carrying amounts approximate fair value and are recorded on the schedule of net assets of the MPT in cash collateral invested in fixed income securities and repurchase agreements.

The MPT bears the risk of loss with respect to the investments purchased with the cash collateral except for repurchase agreements which are indemnified by BNYMellon Bank. BNYMellon Bank has agreed to indemnify the MPT in the case of default of any borrower pursuant to respective securities lending agreements.

6. Derivative Financial Instruments

In the ordinary course of business, the MPT enters into various types of derivative transactions through its discretionary Investment Advisors. Derivative contracts serve as components of the MPT's investment strategies and are utilized primarily to hedge investments to enhance performance and reduce risk to the MPT, as well as for speculative purposes.

Under U.S. GAAP, the MPT is required to disclose its objectives and strategies for using derivatives by primary underlying risk exposure; information about the volume of derivative activity; disclosures about credit-risk-related contingent features and concentrations of credit-risk derivatives. Additionally, U.S. GAAP requires the quantitative disclosures of the location and gross fair value of derivative instruments reported in the schedule of net assets of the MPT and the gains and losses generated from derivative investing activity during the year ended December 31, 2014 on the schedule detailing investment income of the MPT.

Notes to Financial Statements (continued)

(In Thousands)

6. Derivative Financial Instruments (continued)

The MPT invests in derivative contracts with underlying exposure to interest rate risk (interest rate risk contracts) which consist of interest rate swaps, futures contracts and option contracts on fixed income securities; equity and fixed income price risk (equity and fixed income price risk contracts) which consists of index futures and option contracts on fixed income securities; credit risk (credit risk contracts) which consist of credit default swaps and total return swaps; and foreign currency risk (foreign currency risk contracts) which consist of futures and foreign exchange contracts.

Futures Contracts

Futures contracts are commitments to purchase or sell securities based on financial indices at a specified price on a future date. The MPT's Investment Advisors use index futures contracts to manage both short-term asset allocation and the duration of the fixed income portfolio. Most of the contracts have terms of less than one year. The credit risk of futures contracts is limited because they are standardized contracts traded on organized exchanges and are subject to daily cash settlement of the net change in value of open contracts. Fluctuation in unrealized gain or loss related to other futures contracts is recorded daily until realized on closing. Both realized and unrealized gain or loss are included in net appreciation/(depreciation) in fair value of investments on the schedule detailing investment income of the MPT. Futures contracts require collateral consisting of cash or liquid securities and daily variation margin settlements to be provided to brokers. Outstanding futures contracts held by the MPT consist primarily of S&P 500 index futures, Eurodollar futures and U.S. Treasury Note and exchange index futures. The total net fair value of futures contracts at December 31, 2014 and 2013 was \$29,582 and (\$4,066), respectively, and are included in futures contracts assets and liabilities on the schedule of net assets of the MPT.

Forward Foreign Exchange Contracts

In a forward foreign exchange contract, one currency is exchanged for another on an agreed upon date at an agreed upon exchange rate. The MPT's Investment Advisors use forward foreign exchange contracts to manage the currency risk inherent in owning securities denominated in foreign currencies and to enhance investment returns. Risks arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts and from fluctuations in the value of a foreign currency relative to the U.S. dollar or U.S. Treasury

Notes to Financial Statements (continued)

(In Thousands)

6. Derivative Financial Instruments (continued)

security. Most of the contracts have terms of ninety days or less and are settled in cash on settlement of the contract. The change in fair value of such contracts is recorded by the MPT as an unrealized gain or loss in net appreciation/(depreciation) in fair value of investments in the schedule detailing investment income of the MPT. When the contract is closed, the MPT records a realized gain or loss equal to the difference between the cost of the contract at the time it was opened and the value at the time it was closed. Both realized and unrealized gain/loss are included in net appreciation/(depreciation) in fair value of investments on the schedule detailing investment income of the MPT.

As of December 31, 2014 and 2013, the MPT held open forward foreign exchange contracts receivable and payable primarily in Canadian Dollars, Japanese Yen, Swiss Francs, British Pounds, Euros and U.S. dollars. The total net fair value of forward foreign exchange contracts at December 31, 2014 and 2013 was \$3,042 and (\$2,534), respectively, which is included in foreign exchange contracts assets and liabilities on the statements of net assets of the MPT.

Options

Options are contracts entitling the holder to purchase or sell a specified number of shares or units of a particular security at a specified price at any time until the contract's stated expiration date. Premiums paid for options purchased are recorded as investments and premiums received for options written/sold are recorded as liabilities. When securities are acquired or delivered upon exercise of an option, the acquisition cost or sale proceeds are adjusted by the amount of the premium. When an option is closed, the difference between the premium and the cost to close the position is realized as a gain or loss. When an option expires, the premium is realized as a gain for options written or as a loss for options purchased. Both realized and unrealized gain/loss are included in net appreciation/(depreciation) in fair value of investments on the schedule detailing investment income of the MPT. The risks include price movements in the underlying securities, the possibility that options markets may be illiquid, or the inability of the counterparties to fulfill their obligations under the contracts.

As of December 31, 2014 and 2013, the MPT held written option contracts with a fair value of \$323 and \$761, respectively, which are included in options written on the schedule of net assets of the MPT. The written option contracts are primarily options on currency futures and options on fixed income securities. As of December 31, 2014 and 2013, the MPT has purchased options of \$1,187 and \$3,572, respectively, which are included in options purchased at fair value on the schedule of net assets of the MPT.

6. Derivative Financial Instruments (continued)

Swap Contracts

Swap contracts involve the exchange by the MPT with another party of their respective commitments to pay or receive a series of cash flows calculated by reference to changes in specified prices or rates throughout the lives of the agreements. A realized gain or loss is recorded upon termination or settlement of swap agreements. Unrealized gains or losses are recorded based on the fair value of the swaps. Both realized and unrealized gain and loss are included in net appreciation/(depreciation) in fair value of investments on the schedule detailing investment income of the MPT. The Investment Advisors retained by the MPT enter into interest rate swaps as part of their investment strategy to hedge exposure to changes in interest rates and to enhance investment returns. The Investment Advisors also enter into credit default swaps in order to manage the credit exposure in the portfolio and to enhance investment returns.

A credit default swap represents an agreement in which one party, the protection buyer, pays a fixed fee, the premium, in return for a payment by the other party, the protection seller, contingent upon a specified default event relating to an underlying reference asset or pool of assets. While there is no default event, the protection buyer pays the protection seller the periodic premium. If the specified credit event occurs, there is an exchange of cash flows and/or securities designed so that the net payment to the protection buyer reflects the loss incurred by creditors of the reference credit in the event of its default. The nature of the credit event is established by the buyer and seller at the inception of the transaction and such events include bankruptcy, insolvency, rating agency downgrade and failure to meet payment obligations when due. Risks may arise from unanticipated movements in interest rates or the occurrence of a credit event whereby changes in the market values of the underlying financial instruments may be in excess of the amounts shown in the schedule of net assets of the MPT.

As of December 31, 2014 and 2013, the MPT had outstanding swap contracts consisting primarily of interest rate swap and credit default swap contracts. The fair value of swap contracts that is included in investments under swap contracts in the schedule of net assets of the MPT at December 31, 2014 and 2013 was \$6,050 and \$8,758, respectively. The fair value of swap contracts that are included in liabilities under swap contracts in the schedule of net assets of the MPT at December 31, 2014 and 2013 was \$33,294 and \$10,875, respectively.

Notes to Financial Statements (continued)

(In Thousands)

6. Derivative Financial Instruments (continued)

The MPT utilizes its Investment Advisors to conduct derivative trading on its behalf. Investment Advisors enter into International Swaps and Derivative (ISDA) Master Agreements with counterparties. The ISDA Agreements contain master netting arrangements that allow amounts owed from the counterparty to be offset with amounts payable to the same counterparty within the same Investment Advisors account within the MPT. Each Investment Advisor retains separate ISDA agreements with the MPT's counterparties. Cash collateral associated with the derivatives have not been added or netted against the fair value amounts.

Information about Derivative Instruments and Derivative Activity

The following table sets forth the gross fair value of MPT's derivative asset and liability contracts by major risk type as of December 31, 2014 and 2013, and their location on the schedule of net assets of the MPT. The fair values of these derivatives are presented on a gross basis, prior to the application of the impact of counterparty and collateral netting as permitted by the MPT's Investment Advisors' bilateral ISDA Master Agreements.

Equity and fixed income price risk contracts ³	2,137		81	

¹ Includes interest rate swaps (notionals) and futures contracts (notionals) on fixed income securities.

Credit-Risk Related Contingent Features

The MPT's derivative contracts are subject to ISDA Master Agreements at the Investment Advisor account level. The ISDA agreements contain certain covenants and other provisions that may affect the Investment Advisors account within the MPT in situations where the MPT is in a net liability position with its counterparties. These provisions require the MPT's Investment Advisor's account within the MPT maintain a certain level of net assets or limit the size of certain liability positions. If the MPT were not to meet such provisions, the counterparties to the derivative instruments could, depending on the nature of the agreements, either require the account to post additional collateral in amounts representing a multiple of the original collateral amounts required pursuant to the ISDA Master Agreements or terminate their derivative positions with the account and request immediate payment on all open derivative contracts, after the application of master netting arrangements (credit-risk-related contingent features).

The aggregate fair value of all derivative instruments with credit-risk-related contingent features that are in a liability position, prior to the application of master netting arrangements, as of December 31, 2014 and 2013 was \$33,294 and \$10,875, respectively, for which the MPT had

² Includes credit default swaps (notionals).

Includes index futures (notionals) and options contracts (contracts) on fixed income securities, equity index swaps (notionals) and total return swaps (notionals).

⁴ Includes futures contracts, options and foreign exchange contracts (contracts).

Notes to Financial Statements (continued)

(In Thousands)

6. Derivative Financial Instruments (continued)

posted collateral of \$28,387 and \$12,228, respectively, in the normal course of business. If the credit-risk-related contingent features underlying these instruments in a liability position had been triggered as of December 31, 2014 and 2013 (after offsetting any applicable collateral), and the MPT had to settle these instruments immediately, the MPT would have been required to pay the total amount of the net liability stated above upon demand of the counterparties. The ultimate amounts that may be required as payment to settle the derivative positions in connection with the triggering of such credit contingency features at December 31, 2014 may be different than the net liability amounts stated at December 31, 2014 and such differences could be material.

Off-setting Effects

The MPT is required to disclose the impact of offsetting assets and liabilities presented in the schedule of net assets of the MPT to enable users of the financial statements to evaluate the effect or potential effect of netting arrangements on its financial position for recognized assets and liabilities. The assets and liabilities that would be subject to offsetting are derivative instruments that are either subject to an enforceable master netting arrangement or similar agreement or meet the following right of setoff criteria: the amounts owed by the MPT to another party are determinable, the MPT has the right to set off the amounts owed with the amounts owed by the other party, the MPT intends to setoff, and the MPT's right of setoff is enforceable by law.

When the MPT has a basis to conclude that a legally enforceable netting arrangement exists between the MPT and the counterparty, the MPT may offset these assets and liabilities in its schedule of net assets of the MPT. The MPT records its derivative investments on a gross basis in the schedule of net assets of the MPT.

Notes to Financial Statements (continued)

(In Thousands)

6. Derivative Financial Instruments (continued)

The following tables provide disclosure regarding the potential effect of offsetting recognized assets and liabilities presented in the schedule of net assets of the MPT had the MPT applied these netting provisions:

For the Year Ending December 31, 2014:

			G	ross Amounts Schedule of	Net Amount

7. Off-Balance Sheet Risk and Risk Concentrations

In the normal course of its business, the MPT trades various financial instruments and enters into various investment activities with a variety of risks including market, credit, liquidity, and risks associated with foreign investing. Additionally, the MPT bears certain risks related to conducting business with its counterparties.

The MPT does not offset in the schedule of net assets of the MPT.
 Swaps and options that are subject to the same ISDA agreement and allowable netting arrangements have been combined.

Notes to Financial Statements (continued)

(In Thousands)

7. Off-Balance Sheet Risk and Risk Concentrations (continued)

Market risk is the risk of potential adverse changes to the value of financial instruments resulting from changes in market prices. If the markets should move against one or more positions in any of the financial instruments the MPT holds, the MPT could incur losses greater than the amounts reflected in the schedule of net assets of the MPT. The MPT's exposure to market risk may be due to many factors, including the movements in interest rates, foreign exchange rates, indices, market volatility, and security values underlying derivative instruments.

The MPT trades in derivatives (as described in Note 6), which may include financial futures contracts, forward foreign currency contracts, swaps, and options. These instruments contain, to varying degrees, elements of credit and market risk such that potential maximum loss is in excess of the amounts recognized in the financial statements. The contract or notional amounts of these instruments, which are not included in the financial statements, are indicators of the MPT's activities in particular classes of financial instruments, but are not indicative of the associated risk which is generally a smaller percentage of the contract or notional amount. In addition, the measurement of market risk is meaningful only when all related and offsetting transactions are taken into consideration. The MPT is subject to market risk with regard to these instruments as it may not be able to realize benefits of the financial instruments and may realize losses, if the value of underlying assets moves unexpectedly because of changes in market conditions.

The MPT enters into forward foreign currency contracts, swaps, options and security lending with various counterparties; therefore the MPT is exposed to credit risk with such counterparties. Management seeks to limit its credit risk by requiring its counterparties to provide collateral based upon the value of contractual obligations.

Credit risk is the risk that the MPT would incur losses if its counterparties failed to perform pursuant to the terms of their respective obligations or fulfill their obligations to repay amounts being held on behalf of the MPT.

The collateral provided by the counterparties is included in investments and due to brokers on the schedule of net assets of the MPT. Furthermore, management requires the MPT's Investment Advisors have in place a well defined counterparty selection and collateral process and procedures to transact its securities and other investment activities with broker-dealers, banks, and regulated exchanges that the Master Trustee and Investment Advisors consider to be well-established and financially sound.

Notes to Financial Statements (continued)

(In Thousands)

7. Off-Balance Sheet Risk and Risk Concentrations (continued)

The MPT invests in various U.S. and international equity and debt securities. The ability of the issuers of debt securities held by the MPT to meet their obligations may be affected by unique economic developments in a specific country, region, or industry. Until the fixed income securities are sold or mature, the MPT is exposed to credit risk relating to whether the bond issuer will meet its obligation when it becomes due. Failure of the bond issuer to make payments of principal or interest upon the default of the underlying security may result in losses to the MPT. Investing in securities of foreign entities involves special risks which include the possibility of future political and economic developments which could adversely affect the value of such securities. Moreover, securities of many foreign entities may be less liquid and their prices may be more volatile than those of comparable U.S. entities.

The MPT invests in private equity, real estate and absolute return investments, which are illiquid, can be subject to various restrictions on resale, and there can be no assurance that the MPT will be able to realize the value of such investments in a timely manner. Certain absolute return investments are subject to a "lock up" period on the MPT's initial investment. As such, there is no assurance that the MPT can realize the value of certain absolute return investments in a timely manner. The MPT's investments in limited partnerships are subject to various risk factors arising from the investment activities of the underlying vehicles including market, credit and currency risk. Certain partnerships owned by the MPT may transact in short currency contracts, futures, written, and purchased options and swaps exposing the investee partnership to market risk such that potential maximum loss is in excess of the amounts recorded in the limited partnerships' financial statements. The MPT's risk of loss is limited to the value of the investments as of December 31, 2014 and 2013, including any unfunded commitments.

8. Section 420 Transfers

The Company made a "Collectively Bargained Transfer" of \$180,000 in December 2014 of excess pension assets of the MPT held for the Plan to an account of the Plan under the MPT established under Section 401(h) of the Code, pursuant to Section 420 of the Code, to cover retiree health care costs for Plan participants. As further permitted by Section 420 of the Code, the Plan transferred \$44,999 in December 2014 of excess pension assets to an applicable life insurance account established under Section 420(a) of the Code, pursuant to Section 420 of the Code, to fund a portion of retiree life insurance coverage.

Notes to Financial Statements (continued)

(In Thousands)

8. Section 420 Transfers (continued)

In accordance with Section 401(h) and Section 420 of the Code, the Plan's investments in the 401(h) account and applicable life insurance account may not be used for or diverted to any purpose other than providing, respectively, health benefits and applicable life insurance benefits for the participants, as well as administration costs. The related obligations for health benefits and applicable life insurance benefits are not reported in the Plan's statement of accumulated plan benefits but are reported as obligations in the Alcatel-Lucent Retiree Welfare Benefits Plan.

At December 31, 2014 and 2013, 401(h) assets of \$226,653 and \$232,865, respectively, have yet to be transferred and are reflected as liabilities of the Plan. At December 31, 2014 and 2013, applicable life insurance assets of \$0 and \$1 for interest earned have yet to be transferred and are reflected as a liability of the Plan.

9. Party-in-Interest Transactions

Certain Master Trust investments include the Company's fixed income securities. However, such fixed income securities constitute "qualifying employer securities" within the meaning of section 407 of ERISA, and therefore these investments do not constitute party-in-interest transactions.

10. Reconciliation of Financial Statements and Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31			
	2014	2013

11. Subsequent Events

Management has evaluated subsequent events through October 14, 2015, the date the financial statements were available to be issued. There were no material subsequent events that occurred between January 1, 2015 through October 14, 2015 that required disclosure in the financial statements, except as follows:

On April 15, 2015, Alcatel-Lucent (the parent company of the Company) and Nokia announced their intention to combine through a public exchange offer whereby Nokia would acquire all of Alcatel-Lucent, with Alcatel-Lucent shareholders receiving shares of Nokia. The transaction, which remains subject to the satisfaction of various conditions, is currently expected to be completed sometime in the first half of 2016, although the transaction could be completed sooner.

Notes to Financial Statements (continued)

(In Thousands)

11. Subsequent Events (continued)

On June 29, 2015, the Company's Board of Directors (the "Board") authorized and directed certain officers of the Company to review and, in their discretion, to approve and effect, at such time as they shall determine desirous, a transfer of certain participants and beneficiaries from the Plan to the ALRIP. On September 28, 2015, the Board modified this authorization and direction to provide that these officers are authorized and directed to review and, in their discretion, to approve and effect a transfer of the previously defined participants from the Plan to the ALRIP and of the previously defined beneficiaries from the Plan to the LTRP (instead of to the ALRIP). As of October 14, 2015, none of the transfers have been approved. The transfers, if implemented, would occur on December 1, 2015.

During the period commencing on July 20, 2015 and ending on September 25, 2015, certain participants, surviving beneficiaries and alternate payees in the Plan are being offered a one-time opportunity to elect to convert the value of their remaining expected monthly pension payments under the Plan to an actuarially equivalent lump-sum payment. Certain former employees also have the opportunity to change their current annuity form of payment to a different annuity option. Payments under this program, called the Alcatel-Lucent Retiree Lump-Sum Window Program, for those who timely elect to receive a lump-sum payment, are expected to be made on November 2, 2015. Payments under the Program for those who elect a new annuity form of payment will commence in the new form on December 1, 2015.

Schedule SB, Part V – Summary of Plan Provisions

The following summary describes principal plan provisions assumed in calculating the cost of your pension plan.

General Information

History

The Lucent Technologies Inc Pension Plan ("LTPP" or the "Plan") was established as of October 1, 1996 as a result of the restructuring of AT&T. The LTPP assets and liabilities for active and inactive participants were spun-off from the AT&T Pension Plan (AT&T PP) as of that date. The plan provisions of the spun-off plan were the same as those of the AT&T PP at the time of the spin-off. All prior service and compensation under the AT&T PP were also counted for benefit and eligibility purposes under the LTPP.

Plan Provisions

The Lucent Technologies Inc. Pension Plan is a noncontributory defined benefit plan which covers (i) domestic represented and certain non-represented former occupational employees of the Company who terminated employment prior to January 1, 2006, and (ii) domestic represented and non-represented former occupational employees of the Company who terminate employment after December 31, 2005 with a service pension or a disability pension under the provisions of the LTRP and with respect to whom assets and liabilities are transferred from the Lucent Technologies Inc. Retirement Plan (LTRP) to the Plan. Prior to December 31, 2005, the Plan covered both active and terminated employees.

Certain participants can transfer their accumulated interest in the Plan to other plans covered by the Mandatory Portability Agreement (MPA), as their employment status changes. The MPA was established in response to federal legislation mandating the continued portability of certain benefits among former Bell companies subsequent to the court ordered divestiture of the former Bell system as of January 1, 1984.

Normal Retirement Age and Vesting

The Normal Retirement Age is age 65 with the completion of 5 years of vesting service. Employees with at least 5 years of vesting service are 100% vested in their pension benefit. Employees who terminate with less than 5 years of vesting service are not vested and are not entitled to any benefits under the Plan. However, all participants who were active as of December 26, 2002 are 100% vested as a result of the requirements of Section 420 of the Internal Revenue Code, in connection with the transfer of excess LTPP assets to cover retiree medical claims.

Retirement Eligibility and Early Retirement Reduction

Service pensions are provided when the following conditions are met:

		Minimum
Age	_	Years of Net Credited Service
65	and	10
55	and	20
50	and	25
Any age and		30

. .. .

Lucent Technologies Inc. Pension Plan EIN: 22-3408857 PN: 002

Schedule SB, Part V – Summary of Plan Provisions

If the employee has less than 30 years of service, the service pension amount is discounted by one-half percent (0.5%) for each full or partial month by which the employee's age at retirement is less than 55 years. If the employee has at least 30 years of service, the service pension amount is not discounted for age.

Pension Amount

The monthly pension amount prior to any early retirement reduction is determined as the sum of the following:

- The dollar amount corresponding to the appropriate pension band assigned to an employee (See Pension Band Table at the end of this summary) multiplied by the employee's years and months of service at retirement, or termination, if earlier.
- 2. The product of (1) .001, (2) the employee's average annual amount of differentials and other special payments paid over the last 36 months of service and (3) the employee's years and months of service.

Disability Pension

An employee with at least 15 years of service who becomes totally and permanently disabled retires with a disability pension. The disability pension is not discounted for age.

In 2002 the disability pension benefits began to be paid from the pension trust fund. Previously, these benefits were paid from Company operating funds.

Payment of Annuities

The full monthly benefit is paid at the end of each month of retirement up to and including the end of the month in which the annuitant dies.

Form of Payment

Any employee who terminates with a vested accrued benefit with a present value of \$1,000 or less, prior to attaining early retirement eligibility, will automatically receive a lump sum of that present value.

Any other employee who terminates with a vested accrued benefit prior to attaining one of the foregoing minimum age and net credited service requirements for retirement eligibility may elect to commence receipt of pension benefits deferred to age 65 in one of the following forms:

- In the case of CWA participants who terminate prior to service pension eligibility after June 1, 2001 a single lump sum of the present value of the deferred to 65 benefit (in the case of an employee who is legally married), if the spouse provides written notarized consent.
- Single Life Annuity if (in the case of an employee who is legally married) the spouse provides written notarized consent.
- Actuarially reduced 50% Joint and Survivor Annuity with the spouse as a joint annuitant if the employee is legally married. The actuarial reduction is 12%.

Lucent Technologies Inc. Pension Plan

EIN: 22-3408857 PN: 002

Schedule SB, Part V – Summary of Plan Provisions

Any employee who retires on or after attaining one of the foregoing minimum age and net credited service requirements may elect to commence receipt of pension benefits immediately in one of the following forms:

- Single Life Annuity if (in the case of an employee who is legally married) the spouse provides written notarized consent.
- Actuarially reduced 50% Joint and Survivor Annuity with pop-up with the spouse as a joint annuitant if the employee is legally married. The actuarial reduction is 8%.
- Actuarially reduced 75% Joint and Survivor Annuity with pop-up with the spouse as a joint annuitant if the employee is legally married. The actuarial reduction is 12%.
- Actuarially reduced 100% Joint and Survivor Annuity with pop-up with the spouse as a joint annuitant
 if the employee is legally married and the spouse provides written notarized consent. The actuarial
 reduction is 15%.
- Actuarially reduced 10 Year Certain and Life Annuity if (in the case of an employee who is legally married) the spouse provides written notarized consent. The actuarial reduction is 5%.

In 2004, the charge for surviving spouse coverage for death of terminated vested participants before pension payments begin was eliminated. Also, if the spouse dies after the joint and survivor pension has commenced, payments to the participant will be increased to the original amount prior to the joint and survivor reduction.

In 2005, an employee who terminates with a vested accrued benefit with a present value of \$1,000 or less (previously \$5,000) will automatically receive a lump sum of the present value.

Effect of Prior Voluntary/Involuntary Downsizing Programs

In 2001, 2002 and 2003 certain employees were involuntarily (in some cases voluntarily) terminated and offered additional benefits they could take as a pension or a lump sum.

Death Benefits

The surviving spouse of a vested active employee who dies with a term of employment of less than 15 years is awarded an automatic annuitant's pension equal to 50% of the amount the employee would have received at age 65 had the employee terminated on the date of death with a deferred vested pension and elected a joint and survivor annuity. Payments to the surviving spouse begin at the time the deceased employee would have attained age 65. In the case of an active employee with a term of employment at the time of death of at least 15 years, the automatic annuitant's pension commences immediately and is equal to 50% of the amount the employee would have received had such employee retired with a service pension, as of the date of death, having elected a survivor annuity, and without any discount for early retirement.

Certain mandatory beneficiaries of active employees and retired employees receiving Service or Disability Pensions are eligible for Death Benefits. For eligible beneficiaries of active employees, the benefit is equal to one year's pay at the date of death. For eligible beneficiaries of retired employees, the benefit is generally equal to one year's pay at retirement.

Lucent Technologies Inc. Pension Plan

EIN: 22-3408857 PN: 002

Schedule SB, Part V – Summary of Plan Provisions

Plan Amendments Prior to 2014

- Effective January 1, 2008, the Plan was amended to implement the terms of a Settlement Agreement between the Company and the International Brotherhood of Electrical Workers, International Brotherhood of Electrical Workers Local 2020, and International Brotherhood of Electrical Workers Local 1141 (collectively, the "IBEW") and the terms of a Settlement Agreement between the Company and the Communications Workers of America ("CWA"), wherein affected employees would receive enhanced pension benefits.
- The Plan was amended to provide for certain enhanced pension benefits associated with: (a) the plant shutdown of the Merrimack Valley Works facility (effective January 1, 2008), (b) the Lisle Facility Closing Agreement, the Charlotte Facility Closing Agreement, and the Whippany Facility closing Agreement (all effective January 1, 2009 and (c) the Enhanced Transition Leave of Absence Holmdel Closing Agreement (effective January 1, 2009).
- Effective January 1 2008, the Plan was amended to include language to comply with PPA'06 requirements (e.g. including new mortality and interest assumptions).
- Effective January 1, 2008, the Plan was amended to implement the terms of a certain Grievance Settlement Agreement and Settlement Agreement between the Company and the Communications Workers of America ("CWA"), wherein affected employees who were involuntarily separated from service between 2002 and 2007 became eligible for certain enhanced pension benefits. Effective January 1, 2008, the Plan was also amended to implement the terms of a certain Closing Agreement between the Company and the CWA, pursuant to which certain then-currently-employed employees represented for collective bargaining purposes by the CWA and whose employment was involuntarily terminated after November 1, 2007 became eligible to receive certain enhanced pension benefits.
- On November 30, 2009, the Plan was amended, retroactive to January 1, 2009, to include the Joint and 75% Survivor option required under the PPA '06 and to allow the non-spousal beneficiary to rollover a distribution to a retirement account.
- On December 18, 2009, the Company and the CWA agreed to offer a special voluntary termination program (the "2009 Special Voluntary Termination Program" (SVTP)) to certain CWA-represented Installers who elected to terminate after January 1, 2010 under the SVTP and receive enhanced pension benefits. The Plan was amended effective January 1, 2010 to provide for the SVTP benefit.
- Effective December 1, 2010, a certain group of participants from the Lucent Technologies Inc.
 Pension Plan was transferred into the Alcatel-Lucent Retirement Income Plan ("ALRIP").
- On December 31, 2010, the Plan was amended retroactively to reflect the changes required to comply with the Heroes Earning and Assistance Relief Act of 2008 (the "Heart Act").
- Effective December 1, 2011, assets and liabilities for certain identified beneficiaries were transferred from the LTPP into the ALRIP. The beneficiaries transferred were: surviving spouses and surviving contingent beneficiaries in pay status (i.e. receiving monthly payments after having satisfied the administrative requirements to commence a survivor pension) of deceased participants who died prior to January 1, 2011.

EIN: 22-3408857 PN: 002

Schedule SB, Part V – Summary of Plan Provisions

- On December 29, 2011, the Plan was amended retroactive to January 1, 2011 to provide that the
 pensions of rehired Business & Technical Associates (BTAs) are to be transferred to ALRIP, rather
 than to Lucent Technologies Inc. Retirement Plan ("LTRP").
- Effective June 22, 2012, the Plan was amended to provide a limited window under which certain participants who are eligible for a deferred vested benefit may elect to have their pension distribution in a lump sum.
- On December 28, 2012, the collective bargaining agreement with the CWA was extended for one
 year under the Agreement, active pension bands in the LTRP were increased 3.0%. The Plan was
 amended to reflect this plan amendment which will apply to participants in the LTRP who retire on or
 after January 1, 2013.
- In 2012, the Plan was amended for Section 420 transfers as a result of the Moving Ahead for Progress in the 21st Century Act (MAP-21).
- Effective January 8, 2013, the Company amended the Plan to implement the terms of paragraph 7 of the 2013 Collective Bargaining Agreement Extension Memorandum of Agreement and the CWA related to the 2013 Special Voluntary Termination Program ("SVTP"). Under the SVTP, employees who volunteer are eligible for enhanced pension benefits.

All amendments noted above are reflected in this valuation. The newly reflected amendments in this valuation are as follows:

- Effective September 16, 2013, modified the definition of Lawful Spouse.
- Effective November 19, 2013, the Plan was amended to implement the terms of the 2013 Lewisville,
 Texas Effects Agreement between the Company and the CWA.
- Effective December 1, 2013, the Plan was amended to transfer assets and liabilities of certain identified LTPP participants, alternate payees and beneficiaries ("2013 LTPP Transferees" of the Phase III transfer) from the Plan to the Alcatel-Lucent Retirement Income Plan.

Plan Amendments After 2013

The following amendment was reflected in this valuation:

 Effective January 1, 2014, the Company amended the Plan to reflect additional offers under the Special Voluntary Termination Program ("SVTP") that occurred during 2014 and to provide for enhanced 2013 SVTP benefits with respect to certain eligible employees.

The following amendments were effective after the valuation date of January 1, 2014 and were excluded for valuation purposes as permitted under IRS Revenue Ruling 77-2:

Effective October 1, 2014, there was an agreement between the Company and the CWA that was signed on August 13, 2014 to increase the pension band monthly benefit amounts with respect to participants who retire on or after October 1, 2014 by 3.0%. The Plan was amended December 19, 2014 to reflect this plan amendment.

EIN: 22-3408857 PN: 002

Schedule SB, Part V – Summary of Plan Provisions

 Effective November 3, 2014, the Plan was amended to provide for a one-time opportunity for eligible individuals to elect to receive a special Disability Replacement Pension benefit in lieu of continuing long-term disability benefits..

Surviving Spouse Benefit The female spouse of a male participant is

assumed to be three years younger than the male

participant. The male spouse of a female

participant is assumed to be two years older than

the female participant.

Benefit Limits Projected benefits are limited by the current IRC

section 415 maximum benefit of \$210,000.

EIN: 22-3408857 PN: 002

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Schedule SB, Part V – Summary of Plan Provisions

The following summary describes principal plan provisions assumed in calculating the cost of your pension plan.

General Information

History

The Lucent Technologies Inc Pension Plan ("LTPP" or the "Plan") was established as of October 1, 1996 as a result of the restructuring of AT&T. The LTPP assets and liabilities for active and inactive participants were spun-off from the AT&T Pension Plan (AT&T PP) as of that date. The plan provisions of the spun-off plan were the same as those of the AT&T PP at the time of the spin-off. All prior service and compensation under the AT&T PP were also counted for benefit and eligibility purposes under the LTPP.

Plan Provisions

The Lucent Technologies Inc. Pension Plan is a noncontributory defined benefit plan which covers (i) domestic represented and certain non-represented former occupational employees of the Company who terminated employment prior to January 1, 2006, and (ii) domestic represented and non-represented former occupational employees of the Company who terminate employment after December 31, 2005 with a service pension or a disability pension under the provisions of the LTRP and with respect to whom assets and liabilities are transferred from the Lucent Technologies Inc. Retirement Plan (LTRP) to the Plan. Prior to December 31, 2005, the Plan covered both active and terminated employees.

Certain participants can transfer their accumulated interest in the Plan to other plans covered by the Mandatory Portability Agreement (MPA), as their employment status changes. The MPA was established in response to federal legislation mandating the continued portability of certain benefits among former Bell companies subsequent to the court ordered divestiture of the former Bell system as of January 1, 1984.

Normal Retirement Age and Vesting

The Normal Retirement Age is age 65 with the completion of 5 years of vesting service. Employees with at least 5 years of vesting service are 100% vested in their pension benefit. Employees who terminate with less than 5 years of vesting service are not vested and are not entitled to any benefits under the Plan. However, all participants who were active as of December 26, 2002 are 100% vested as a result of the requirements of Section 420 of the Internal Revenue Code, in connection with the transfer of excess LTPP assets to cover retiree medical claims.

Retirement Eligibility and Early Retirement Reduction

Service pensions are provided when the following conditions are met:

			Minimum
	Age		Years of Net Credited Service
	65	and	10
	55	and	20
	50	and	25
1	Any age	and	30
	, ,		

. .. .

Lucent Technologies Inc. Pension Plan EIN: 22-3408857 PN: 002

Schedule SB, Part V – Summary of Plan Provisions

If the employee has less than 30 years of service, the service pension amount is discounted by one-half percent (0.5%) for each full or partial month by which the employee's age at retirement is less than 55 years. If the employee has at least 30 years of service, the service pension amount is not discounted for age.

Pension Amount

The monthly pension amount prior to any early retirement reduction is determined as the sum of the following:

- The dollar amount corresponding to the appropriate pension band assigned to an employee (See Pension Band Table at the end of this summary) multiplied by the employee's years and months of service at retirement, or termination, if earlier.
- 2. The product of (1) .001, (2) the employee's average annual amount of differentials and other special payments paid over the last 36 months of service and (3) the employee's years and months of service.

Disability Pension

An employee with at least 15 years of service who becomes totally and permanently disabled retires with a disability pension. The disability pension is not discounted for age.

In 2002 the disability pension benefits began to be paid from the pension trust fund. Previously, these benefits were paid from Company operating funds.

Payment of Annuities

The full monthly benefit is paid at the end of each month of retirement up to and including the end of the month in which the annuitant dies.

Form of Payment

Any employee who terminates with a vested accrued benefit with a present value of \$1,000 or less, prior to attaining early retirement eligibility, will automatically receive a lump sum of that present value.

Any other employee who terminates with a vested accrued benefit prior to attaining one of the foregoing minimum age and net credited service requirements for retirement eligibility may elect to commence receipt of pension benefits deferred to age 65 in one of the following forms:

- In the case of CWA participants who terminate prior to service pension eligibility after June 1, 2001 a single lump sum of the present value of the deferred to 65 benefit (in the case of an employee who is legally married), if the spouse provides written notarized consent.
- Single Life Annuity if (in the case of an employee who is legally married) the spouse provides written notarized consent.
- Actuarially reduced 50% Joint and Survivor Annuity with the spouse as a joint annuitant if the employee is legally married. The actuarial reduction is 12%.

Lucent Technologies Inc. Pension Plan

EIN: 22-3408857 PN: 002

Schedule SB, Part V – Summary of Plan Provisions

Any employee who retires on or after attaining one of the foregoing minimum age and net credited service requirements may elect to commence receipt of pension benefits immediately in one of the following forms:

- Single Life Annuity if (in the case of an employee who is legally married) the spouse provides written notarized consent.
- Actuarially reduced 50% Joint and Survivor Annuity with pop-up with the spouse as a joint annuitant if the employee is legally married. The actuarial reduction is 8%.
- Actuarially reduced 75% Joint and Survivor Annuity with pop-up with the spouse as a joint annuitant if the employee is legally married. The actuarial reduction is 12%.
- Actuarially reduced 100% Joint and Survivor Annuity with pop-up with the spouse as a joint annuitant
 if the employee is legally married and the spouse provides written notarized consent. The actuarial
 reduction is 15%.
- Actuarially reduced 10 Year Certain and Life Annuity if (in the case of an employee who is legally married) the spouse provides written notarized consent. The actuarial reduction is 5%.

In 2004, the charge for surviving spouse coverage for death of terminated vested participants before pension payments begin was eliminated. Also, if the spouse dies after the joint and survivor pension has commenced, payments to the participant will be increased to the original amount prior to the joint and survivor reduction.

In 2005, an employee who terminates with a vested accrued benefit with a present value of \$1,000 or less (previously \$5,000) will automatically receive a lump sum of the present value.

Effect of Prior Voluntary/Involuntary Downsizing Programs

In 2001, 2002 and 2003 certain employees were involuntarily (in some cases voluntarily) terminated and offered additional benefits they could take as a pension or a lump sum.

Death Benefits

The surviving spouse of a vested active employee who dies with a term of employment of less than 15 years is awarded an automatic annuitant's pension equal to 50% of the amount the employee would have received at age 65 had the employee terminated on the date of death with a deferred vested pension and elected a joint and survivor annuity. Payments to the surviving spouse begin at the time the deceased employee would have attained age 65. In the case of an active employee with a term of employment at the time of death of at least 15 years, the automatic annuitant's pension commences immediately and is equal to 50% of the amount the employee would have received had such employee retired with a service pension, as of the date of death, having elected a survivor annuity, and without any discount for early retirement.

Certain mandatory beneficiaries of active employees and retired employees receiving Service or Disability Pensions are eligible for Death Benefits. For eligible beneficiaries of active employees, the benefit is equal to one year's pay at the date of death. For eligible beneficiaries of retired employees, the benefit is generally equal to one year's pay at retirement.

Lucent Technologies Inc. Pension Plan

EIN: 22-3408857 PN: 002

Schedule SB, Part V – Summary of Plan Provisions

Plan Amendments Prior to 2014

- Effective January 1, 2008, the Plan was amended to implement the terms of a Settlement Agreement between the Company and the International Brotherhood of Electrical Workers, International Brotherhood of Electrical Workers Local 2020, and International Brotherhood of Electrical Workers Local 1141 (collectively, the "IBEW") and the terms of a Settlement Agreement between the Company and the Communications Workers of America ("CWA"), wherein affected employees would receive enhanced pension benefits.
- The Plan was amended to provide for certain enhanced pension benefits associated with: (a) the plant shutdown of the Merrimack Valley Works facility (effective January 1, 2008), (b) the Lisle Facility Closing Agreement, the Charlotte Facility Closing Agreement, and the Whippany Facility closing Agreement (all effective January 1, 2009 and (c) the Enhanced Transition Leave of Absence Holmdel Closing Agreement (effective January 1, 2009).
- Effective January 1 2008, the Plan was amended to include language to comply with PPA'06 requirements (e.g. including new mortality and interest assumptions).
- Effective January 1, 2008, the Plan was amended to implement the terms of a certain Grievance Settlement Agreement and Settlement Agreement between the Company and the Communications Workers of America ("CWA"), wherein affected employees who were involuntarily separated from service between 2002 and 2007 became eligible for certain enhanced pension benefits. Effective January 1, 2008, the Plan was also amended to implement the terms of a certain Closing Agreement between the Company and the CWA, pursuant to which certain then-currently-employed employees represented for collective bargaining purposes by the CWA and whose employment was involuntarily terminated after November 1, 2007 became eligible to receive certain enhanced pension benefits.
- On November 30, 2009, the Plan was amended, retroactive to January 1, 2009, to include the Joint and 75% Survivor option required under the PPA '06 and to allow the non-spousal beneficiary to rollover a distribution to a retirement account.
- On December 18, 2009, the Company and the CWA agreed to offer a special voluntary termination program (the "2009 Special Voluntary Termination Program" (SVTP)) to certain CWA-represented Installers who elected to terminate after January 1, 2010 under the SVTP and receive enhanced pension benefits. The Plan was amended effective January 1, 2010 to provide for the SVTP benefit.
- Effective December 1, 2010, a certain group of participants from the Lucent Technologies Inc.
 Pension Plan was transferred into the Alcatel-Lucent Retirement Income Plan ("ALRIP").
- On December 31, 2010, the Plan was amended retroactively to reflect the changes required to comply with the Heroes Earning and Assistance Relief Act of 2008 (the "Heart Act").
- Effective December 1, 2011, assets and liabilities for certain identified beneficiaries were transferred from the LTPP into the ALRIP. The beneficiaries transferred were: surviving spouses and surviving contingent beneficiaries in pay status (i.e. receiving monthly payments after having satisfied the administrative requirements to commence a survivor pension) of deceased participants who died prior to January 1, 2011.

EIN: 22-3408857 PN: 002

Schedule SB, Part V – Summary of Plan Provisions

- On December 29, 2011, the Plan was amended retroactive to January 1, 2011 to provide that the
 pensions of rehired Business & Technical Associates (BTAs) are to be transferred to ALRIP, rather
 than to Lucent Technologies Inc. Retirement Plan ("LTRP").
- Effective June 22, 2012, the Plan was amended to provide a limited window under which certain participants who are eligible for a deferred vested benefit may elect to have their pension distribution in a lump sum.
- On December 28, 2012, the collective bargaining agreement with the CWA was extended for one
 year under the Agreement, active pension bands in the LTRP were increased 3.0%. The Plan was
 amended to reflect this plan amendment which will apply to participants in the LTRP who retire on or
 after January 1, 2013.
- In 2012, the Plan was amended for Section 420 transfers as a result of the Moving Ahead for Progress in the 21st Century Act (MAP-21).
- Effective January 8, 2013, the Company amended the Plan to implement the terms of paragraph 7 of the 2013 Collective Bargaining Agreement Extension Memorandum of Agreement and the CWA related to the 2013 Special Voluntary Termination Program ("SVTP"). Under the SVTP, employees who volunteer are eligible for enhanced pension benefits.

All amendments noted above are reflected in this valuation. The newly reflected amendments in this valuation are as follows:

- Effective September 16, 2013, modified the definition of Lawful Spouse.
- Effective November 19, 2013, the Plan was amended to implement the terms of the 2013 Lewisville,
 Texas Effects Agreement between the Company and the CWA.
- Effective December 1, 2013, the Plan was amended to transfer assets and liabilities of certain identified LTPP participants, alternate payees and beneficiaries ("2013 LTPP Transferees" of the Phase III transfer) from the Plan to the Alcatel-Lucent Retirement Income Plan.

Plan Amendments After 2013

The following amendment was reflected in this valuation:

 Effective January 1, 2014, the Company amended the Plan to reflect additional offers under the Special Voluntary Termination Program ("SVTP") that occurred during 2014 and to provide for enhanced 2013 SVTP benefits with respect to certain eligible employees.

The following amendments were effective after the valuation date of January 1, 2014 and were excluded for valuation purposes as permitted under IRS Revenue Ruling 77-2:

Effective October 1, 2014, there was an agreement between the Company and the CWA that was signed on August 13, 2014 to increase the pension band monthly benefit amounts with respect to participants who retire on or after October 1, 2014 by 3.0%. The Plan was amended December 19, 2014 to reflect this plan amendment.

EIN: 22-3408857 PN: 002

Schedule SB, Part V – Summary of Plan Provisions

 Effective November 3, 2014, the Plan was amended to provide for a one-time opportunity for eligible individuals to elect to receive a special Disability Replacement Pension benefit in lieu of continuing long-term disability benefits..

EIN: 22-3408857 PN: 002

Schedule SB, Line 24 - Change in Actuarial Assumptions

An experience study of the demographic assumptions was completed in 2014. The following assumptions were updated:

- Withdrawal rates
- Disability rates
- > Retirement rates
- > Qualified Beneficiary Ratio

These changes were made to better reflect the anticipated plan experience. These assumption changes did not reduce the funding shortfall; as such, approval of the Commissioner is not required.

EIN: 22-3408857 PN: 002

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Interest Rates for Minimum and Maximum Funding

Purposes

The full yield curve for the month preceding the

month that includes the valuation date

Retirement Rates See Table 1

Mortality Rates

Healthy and Disabled 2014 Static Mortality for Annuitants and Non-

Annuitants per § 1.430(h)(3)-1(e)

Withdrawal Rates See Table 2

Disability Rates See Table 3

Beneficiaries See Table 4

Decrement Timing Middle of year decrements

Surviving Spouse Benefit The female spouse of a male participant is

assumed to be three years younger than the male

participant. The male spouse of a female

participant is assumed to be two years older than

the female participant.

Benefit Limits Projected benefits are limited by the current IRC

section 415 maximum benefit of \$210,000.

EIN: 22-3408857 PN: 002

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets 2012 Plan Year 2013 Plan Year

5.75% limited to 7.52% 5.50% limited to 6.76%
