Report of Independent Auditors

To the Employee Benefits Committee of the Alcatel-Lucent Retirement Income Plan

We have audited the accompanying financial statements of the Alcatel-Lucent Retirement Income Plan, which comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the Alcatel-Lucent Retirement Income Plan at December 31, 2015 and 2014, and the changes in its financial status for the year ended December 31, 2015, in conformity with U.S. generally accepted accounting principles.

Supplemental Schedules

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedules of assets (held at end of year) as of December 31, 2015, and reportable transactions for the year then ended, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Notes to Financial Statements (In Thousands)

December 31, 2015

1. Plan Description

The following description of the Alcatel-Lucent Retirement Income Plan (the Plan or ALRIP) provides only general information. Participants and others should refer to the Plan document and the Summary Plan Description of the Plan for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan established by Lucent Technologies Inc. (now known as Alcatel-Lucent USA Inc.) (the Company) as of October 1, 1996. It is a successor to the AT&T Management Pension Plan, in effect as of September 30, 1996, with respect to individuals transferred to the Plan pursuant to the Employee Benefits Agreement dated as of February 1, 1996, as amended, between AT&T Corp. and the Company.

The Plan covers most domestic management employees of the Company, providing a "cash balance" type benefit, called the Cash Account Plan. Other principle benefit programs include the Account Balance Program (frozen in 2009) and the Service-Based Program (also frozen in 2009). The Plan is the successor by merger to various defined benefit plans previously maintained by AG Communication Systems Corporation, Alcatel USA, Inc., and Alcatel Data Networks Inc. Finally, the Plan is a transferee plan with respect to various classes of participants and beneficiaries previously covered under the Lucent Technologies Inc. Pension Plan (the LTPP). Their benefits are provided under a program called the Lucent Pension Program (the LPP) within the Plan.

Effective January 1, 2011, Business & Technical Associates who attain eligibility for a service pension or disability pension under the provisions of the Lucent Technologies Inc. Retirement Plan (LTRP) become participants in this Plan on the day following termination of employment. The associated assets and liabilities for such pension benefit will transfer from the LTRP to the Plan.

Notes to Financial Statements (continued)
(In Thousands)

1. Plan Description (continued)

Cash Account Program

Since January 1, 2014, all eligible employees accrue a benefit under a program within the Plan called the Cash Account Program (CAP). The CAP is a "cash balance" pension program. In this regard, the Plan's recordkeeper establishes recordkeeping accounts under the Plan for each eligible employee. Under the CAP, for each month that the employee remains an eligible employee, the employee receives a pay credit equal to 6% of his or her "CAP-Includible Compensation" (as defined in the Plan). Participants in the CAP also receive, each month, an interest credit equal to 0.3333% of their CAP account balance. Pay credits continue for as long as the individual remains an eligible employee. Interest credits continue for as long as the individual has a CAP account balance.

Account Balance Program

The Account Balance Program is a "cash balance" pension program. It covered eligible employees who were first hired on or after January 1, 1999 and before January 1, 2008. It also covered eligible employees who were rehired within those dates, provided the employee was not previously eligible for a service pension under the Plan's Service-Based Program. Under the Account Balance Program, the Plan's recordkeeper established recordkeeping accounts under the Plan for each eligible employee. Individual employee account balances were initially determined and subsequently increased by Age-Based Pay Credits (as defined in the Plan) and Interest Credits (as defined in the Plan). After December 31, 2009, participants in the Account Balance Program were no longer credited with Pay Credits.

Interest Credits are the product of the participant's account balance and an interest rate determined by the Company. The interest rate may vary from 4% to 10%. The interest rate for 2015 and 2014 was 4%. The Account Balance Program will continue to be adjusted annually for Interest Credits in accordance with the terms of the Plan.

Service-Based Program

Generally, management employees were eligible to participate in the Service-Based Program if they were hired (or rehired) before January 1, 1999 and were on the active payroll of a participating company on December 31, 1998. Provisions covering lapses in service are defined in the Plan.

Notes to Financial Statements (continued) (In Thousands)

1. Plan Description (continued)

Benefits under the Service-Based Program are salary-related. The amount is generally equal to the sum of (a) 1.4% of the participant's average Pensionable Compensation (as defined in the Plan for the period from January 1, 1994 through December 31, 1998) times years and months of credited service completed prior to December 31, 1998, plus (b) 1.4% of the participant's Pensionable Compensation paid after December 31, 1998 through December 31, 2009. Effective December 31, 2009, Term of Employment completed after December 31, 2009 is not considered in the calculation of a pension benefit under the Plan. However, participants continue to receive service credit for purposes of pension eligibility.

Under the provisions of the service based program, normal retirement age is sixty-five; however, a participant may elect to retire early at a reduced benefit, as defined by the Plan.

Participants covered by the service based program with 15 or more years of service receive monthly disability pension benefits from the Plan that are equal to the normal retirement benefits that have accumulated as of the time they become disabled, less any payments from other sources that are considered of the same general character (for example, workers' compensation benefits).

Benefit payments begin after the employee has been disabled for the 26-week period for which sickness disability payments are payable under the Alcatel-Lucent Short Term Disability Plan. Disability pension benefits continue to be paid until the earliest of participant recovery, death, or attainment of normal retirement age. Upon attainment of normal retirement age, participants shall begin to receive a service pension equal to the disability pension benefits received under the Plan.

Merged-in Plans

The Plan is the successor by merger to the following plans:

- Effective as of December 31, 2004, the AGCS Salaried Pension Plan,
- Effective as of March 1, 2007, the Alcatel USA, Inc. Consolidated Retirement Plan and
- Effective as of June 30, 2010, the Alcatel Data Networks, Inc. Retirement Pension Plan.

Notes to Financial Statements (continued)
(In Thousands)

1. Plan Description (continued)

Lucent Pension Program

Since December 31, 2010, the Company has amended the Plan a number of times to implement various transfers of participants and beneficiaries from the LTPP to the Plan (or from the LTPP to the LTRP). These transfers – dubbed "Phase I," "Phase II," etc. – include a transfer of benefit obligations and assets to the Plan from the transferor plan. The transfers have been as follows:

- Phase I. On December 1, 2010, four groups of participants (and associated surviving spouses, contingent beneficiaries and alternate payees of such participants) were transferred to the Plan from the LTPP: (i) participants who, when last actively employed by the Company or an affiliate of the Company that adopted the LTPP for the benefit of its eligible employees (a Participating Company), were represented for purposes of collective bargaining by unions other than the Communications Workers of America (CWA) or the International Brotherhood of Electrical Workers (IBEW); (ii) participants who, when last actively employed by the Company or a Participating Company, were classified by their employer as "Lucent Business Assistants" (LBAs); (iii) participants who were transferred to the LTPP from the AT&T Pension Plan (the AT&T Plan) and were, when last actively employed by the sponsor of the AT&T Plan or a participating company with respect to that plan, represented for purposes of collective bargaining by unions other than the CWA or the IBEW; and (iv) participants who were transferred to the LTPP from the AT&T Plan and were, when last actively employed by the sponsor of the AT&T Plan or a participating company with respect to that plan, classified by their employer as non-represented occupational employees.
- *Phase II.* On December 1, 2011, the following group of beneficiaries was transferred to the Plan from the LTPP: surviving spouses and surviving contingent beneficiaries in pay status (i.e., receiving monthly payments after having satisfied the administrative requirements to commence a survivor pension) of deceased participants who died prior to January 1, 2011.

Notes to Financial Statements (continued) (In Thousands)

1. Plan Description (continued)

- Phase III. On December 1, 2013, the following groups of participants and beneficiaries were transferred to the Plan from the LTPP: (i) service pension eligible (SPE) participants who, when last actively employed, were not represented by the CWA or IBEW; (ii) non-SPE participants; (iii) alternate payees of participants who are in pay status as of September 1, 2013; and (iv) individuals who, as of September 1, 2013, are receiving payment of survivor benefits as the surviving spouses or surviving contingent beneficiaries of deceased participants who died prior to January 1, 2013.
- *Phase IV.* Phase IV was composed of three transfers as follows:
 - Phase IV-A. On December 1, 2015, two groups of participants and beneficiaries were transferred to the Plan from the LTPP: (i) all participants (former employees) in the LTPP as of December 1, 2015, except participants receiving or eligible to receive a service pension or a disability pension who, when last actively employed by a Participating Company (or a predecessor) (or any other entity that was a "participating company" with respect to a prior version of the LTPP or a predecessor plan to the LTPP), were represented for purposes of collective bargaining by the Communications Workers of America (CWA), and (ii) all alternate payees of participants (former employees) in payment status as of September 1, 2015.
 - Phase IV-B. On December 1, 2015, the following group of beneficiaries was transferred to LTRP from the LTPP: all surviving spouses in payment status as of September 1, 2015 except surviving spouses of participants (former employees) who died on or after January 1, 2015.
 - Phase IV-C. On December 31, 2015, the following group of beneficiaries was transferred to LTRP from the LTPP: surviving beneficiaries in deferred status as of December 2, 2015 except surviving beneficiaries of participants who died on or after January 1, 2015.

Notes to Financial Statements (continued)
(In Thousands)

1. Plan Description (continued)

Other Programs

During the period commencing on November 3, 2014 and ending on April 30, 2015, certain participants were offered a one-time opportunity to elect immediate commencement of a Disability Replacement Pension Benefit (the DRP Benefit) equal to the actuarial present value of their monthly disability benefit under the Alcatel-Lucent Long Term Disability Plan for Occupational Employees. Payment of the DRP Benefit for those who timely elected to receive this benefit commenced on May 1, 2015.

Effective June 29, 2015, the Plan was amended to offer the Alcatel-Lucent Retiree Lump-Sum Window Program. This Program made available to certain participants, surviving beneficiaries and alternate payees of such participants, who began receiving retirement benefits on or after March 1, 1990 and were in payment status on June 13, 2015 in the form of monthly annuity payments, a one-time opportunity, during a limited window period during 2015, to convert such annuity payments into an actuarially equivalent, single, lump-sum payment. Certain former employees also had the opportunity to change their existing annuity form of payment to a different annuity option.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are prepared in accordance with U.S. generally accepted accounting principles (U.S. GAAP).

Contributions and Actuarial Method

Contributions to the Plan are determined on a going-concern basis by an actuarial cost method known as the Accrued Benefit Cost Method. Under this method, the projected benefit for each future event is allocated to each of the participant's years of service. The normal cost is equal to the actuarial present value of the benefits allocated to the current year and the actuarial accrued liability is equal to the actuarial present value of the total benefits allocated to years prior to the current year. The actuarial accrued liability for inactive participants was determined as the actuarial present value of the benefits expected to be paid. No normal costs are payable with

Notes to Financial Statements (continued)
(In Thousands)

2. Summary of Significant Accounting Policies (continued)

respect to these participants. The minimum required contribution and the maximum permissible contributions are then determined as the sum of the normal cost for all employees, plus amortization, if any, on the initial unfunded liability, change in liability due to plan amendments, assumption changes and experience gain or loss.

Under the Pension Protection Act of 2006, plans are required to use the Accrued Benefit Cost Method to determine the actuarial accrued liability based on a limited choice of mortality and interest assumptions. Contributions are determined as the sum of the normal cost and a seven year amortization of unfunded liabilities.

The Company's funding policy is to contribute such amounts as are determined on an actuarial basis to meet the minimum funding requirements of the Employee Retirement Income Security Act of 1974, as amended (ERISA), plus such additional amounts as the Company may determine to be appropriate. No contributions were due for the years ended December 31, 2015 and 2014 under the minimum funding requirements of ERISA.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service that employees have rendered to the Company through the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits as of December 31, 2015 and 2014 are based on census data as of those dates. Benefits payable upon retirement, death, disability or withdrawal are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The assumptions used to determine the actuarial present value of accumulated plan benefits as of December 31, 2015 and 2014 include rates of separation, retirement, disability, the Qualified Beneficiary Ratio and the form of payment election, which are based on actual employee experience.

The change in assumptions reflects a decrease of (\$330,273) due to the change in discount rate and a decrease of (\$97,242) due to the change in mortality rate.

Notes to Financial Statements (continued)
(In Thousands)

2. Summary of Significant Accounting Policies (continued)

The mortality table used in determining the actuarial present value of accumulated plan benefits as of December 31, 2015 is Society of Actuaries RP-2014 amounts weighted, white collar mortality for management participants and blue collar for occupational participants with MP-2015 generational projection scale. The mortality table used in determining the actuarial present value of accumulated plan benefits as of December 31, 2014 is Society of Actuaries RP-2014 amounts weighted, white collar mortality for management participants and blue collar for occupational participants with MP-2014 generational projection scale.

Interest assumptions of 5.91% and 5.64% were used to determine the actuarial present values of accumulated plan benefits at December 31, 2015 and 2014, respectively.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make significant estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities and the present value of accumulated plan benefits. These significant estimates include the accumulated plan benefits and the fair value of investments. Actual results could differ from these estimates.

The actuarial present value of accumulated plan benefits is reported based on certain estimates and assumptions regarding the future. As of the date of these financial statements, the Company believes these estimates and assumptions concerning matters such as interest rates and participant demographics are reasonable. However, due to the uncertainties inherent in making any estimate or assumption, it is at least reasonably possible that actual results may differ materially from what has been estimated or assumed.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Notes to Financial Statements (continued)
(In Thousands)

2. Summary of Significant Accounting Policies (continued)

Interplan Transfers, Net

Interplan transfers represent transfers between the LTRP, the LTPP and the Plan. The interplan transfers are recorded on an accrual basis.

Mandatory Portability Transfers, Net

Mandatory portability transfers represent transfers attributable to the Mandatory Portability Agreement, effective January 1, 1985, between and among AT&T, former affiliates and certain other companies, and the Plan. The accumulated benefit obligation at year end does not include the benefits payable to the mandatory portability population. These transfers are recorded on an accrual basis.

Investment and Administrative Expenses

Investment and certain administrative expenses of the Plan are paid by the Plan.

Pension Benefit Guaranty Corporation (PBGC) Premiums

The PBGC was created by ERISA to provide timely and uninterrupted payment of pension benefits. Premium expenses of the Plan are paid by the Plan.

New Accounting Pronouncements

In May 2015, the FASB issued Accounting Standards Update 2015-07, Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent), (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair values are estimated using the net asset value practical expedient provided by Accounting Standards Codification 820, Fair Value Measurement. Disclosures about investments in certain entities that calculate net asset value per share are limited under ASU 2015-07 to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. ASU 2015-07 is effective for entities (other than public business entities) for fiscal years beginning after December 15, 2016, with retrospective application to all periods presented. Early application is permitted. Plan management is currently evaluating the effect that the provisions of ASU 2015-07 will have on the Plan's financial statements.

Notes to Financial Statements (continued)
(In Thousands)

2. Summary of Significant Accounting Policies (continued)

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I of the ASU eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of the ASU eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III of the ASU allows a plan with a fiscal year end that doesn't coincide with the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. The ASU is effective for fiscal years beginning after December 15, 2015. Parts I and II are to be applied retrospectively. Part III is to be applied prospectively. Plans can early adopt any of the ASU's three parts without early adopting the other parts. Plan management has elected to adopt Part II of the ASU early. Parts I and III are not applicable to the Plan.

3. Tax Status

The Internal Revenue Service (IRS) determined, and informed the Company by a letter dated April 23, 2014, that the Plan is designed in accordance with the currently applicable sections of the Internal Revenue Code (Code). Subsequent to this determination by the IRS, the Plan was amended and restated. Where the Plan Administrator has identified operational errors, the Plan Administrator has indicated that it has taken the necessary steps to bring the Plan's operations into compliance with the Code. Therefore, no provision for income taxes has been made.

Notes to Financial Statements (continued)
(In Thousands)

3. Tax Status (continued)

Accounting principles generally accepted in the United States require the Plan administrator to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain tax positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2012.

4. Termination Priorities

The Plan may be terminated or amended at any time by the action of the Board of Directors of the Company. Should the Plan terminate at some future time, its net assets may not be available on a pro rata basis to provide participants' benefits. Whether a participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

Subject to conditions set forth in ERISA, in the event of a Plan termination, distributions of the assets available for benefits will occur as follows:

- a. The Plan provides that the net assets available for benefits shall be allocated among the participants and beneficiaries of the Plan in the order provided for in ERISA,
- b. To the extent unfunded vested benefits then exist, ERISA provides that such benefits are payable by the PBGC to participants, up to specified limitations, as described in ERISA, and
- c. To the extent that the net assets available for benefits exceed the amounts to be allocated pursuant to the priorities provided for in ERISA, such amounts will be allocated among participants pursuant to the priorities set forth in the Plan and ERISA.

Notes to Financial Statements (continued) (In Thousands)

5. Interest in Lucent Technologies Inc. Master Pension Trust

Substantially all of the Plan's investments are in the Lucent Technologies Inc. Master Pension Trust (MPT) which was established for the investment of assets of pension plans of the Company. The Bank of New York Mellon (BNY Mellon or the Trustee) is the Trustee and custodian of the MPT. The Trustee is responsible for custodial, recordkeeping and other trustee responsibilities pursuant to the Amended and Restated Defined Benefit Master Trust Agreement.

The MPT is structured with multiple Master Trust Units. Each Master Trust Unit represents a particular asset class sleeve within the MPT. Each Participating Plan owns units of the investment sleeves based on each Participating Plan's asset allocation policy.

As of December 31, 2015, the following plans participate in the MPT:

- 1) the Plan,
- 2) the LTPP and
- 3) the LTRP.

Each participating plan has an undivided interest in the MPT's various investment sleeves. At December 31, 2015 and 2014, the Plan's interest in the net assets of the MPT was 75.02% and 64.53%, respectively.

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

In the normal course of business, the MPT enters into contracts that contain indemnification clauses. The MPT's maximum exposure under these arrangements is unknown as this would involve future claims that may be against the MPT that have not yet occurred. However, based on experience, the MPT expects the risk of loss to be remote and accordingly has not accrued any related liabilities.

The Trustee allocates investment income, realized gains or losses, unrealized appreciation or depreciation and certain investment expenses including management fees to the Participating Plans on the basis of each Participating Plan's interest in the MPT. Alcatel-Lucent Investment Management Corporation (ALIMCO) directs the Trustee to redeem units from the MPT to provide proper liquidity for each Participating Plan's benefit payments and expenses.

Investment transactions are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date except for certain dividends from non-U.S. securities which are recorded as soon as the information is available after the ex-dividend date. Realized gains or losses on the sale of all securities except for futures contracts are determined based on average cost. Distributions from limited partnership investments are treated as income, realized gain or loss or return of capital based on information reported by the partnership. Net investment income from real estate and limited partnerships are recorded when distribution notices are received from the real estate properties or limited partnership.

| Other income | | 8,401 |
| Total investment income/(loss) | \$ | (78,137) |

Investment Valuation

ALIMCO's Valuation Committee (the Committee) oversees the implementation of the valuation policy. The Committee reviews the custodian's pricing policies and procedures on an annual basis for reasonableness. The Committee also oversees the process of reviewing partnership and commingled fund financial statements where the net asset value (NAV) is used as fair value. Additionally, the Committee reviews fair values provided by Investment Advisors for oil and gas positions and real estate investments. Meetings of the Committee occur on an as needed basis, but at least annually. The Committee is comprised of a group of individuals that have differing perspectives on the valuation process and includes staff persons from ALIMCO's Operations, Compliance, Alternative Investments, Public Market Investments groups and the US Chief Investment Officer. The following discusses the custodian's valuation process for specific investments.

Investments in securities traded on a national securities exchange or a listed market such as the NASDAQ National Market System are valued at the last reported sales prices on the valuation date or if no sale was reported on that date, at amounts that the Committee and custodian feel are most indicative of the fair value based on information that may include the last reported bid or ask prices on the principal securities exchanges or listed market on which such securities are traded. Fixed income securities, and securities not traded on an exchange or a listed market, are

Notes to Financial Statements (continued)
(In Thousands)

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

valued at the bid price or the average of the bid and asked prices on the valuation date obtained from published sources where available, or are valued with consideration of trading activity or any other relevant information, such as independent broker quotations. Fair values of investments in private equity direct investments, publically traded investments and other securities for which market quotations are not readily available, or for which market quotations may be considered unreliable, are estimated in good faith by the Investment Advisors, and/or ALIMCO under consistently applied procedures deemed to be appropriate in the given circumstances. The methods and procedures to fair value these investments may include, but are not limited to the consideration of the following factors: comparisons with prices of comparable or similar securities, obtaining valuation-related information from issuers, using independent third party valuation specialists and pricing models, time value of money, volatility, current market, and contractual prices of the underlying financial instrument, counterparty non-performance risk, and/or other analytical data relating to the investment and using other available indications of value, as applicable. Because of the inherent uncertainties of valuation, the appraised values and estimated fair values reflected in the financial statements may differ from values that would be determined by negotiation between parties in a sales transaction, and the differences could be material.

Derivative instruments held in the MPT are recorded at fair value. Fair value of derivative instruments is determined using quoted market prices when available. Otherwise, fair value is based on pricing models that consider the time value of money, volatility, and the current market or contractual prices of the underlying financial instruments.

Investments in real estate consist primarily of wholly owned property investments, the fair values of which are reviewed on a quarterly basis by third party discretionary Investment Advisors. These investments are valued at amounts based predominantly upon appraisal reports prepared by independent real estate appraisers on at least an annual basis. The values included in the independent real estate appraisal reports are derived from discounted cash flow models.

Private equity investments and certain real estate investments are made through limited partnerships that, in turn, invest in venture capital, leveraged buyouts, real estate, private placements and other investments where the structure, risk profile and return potential differ from traditional equity and fixed income investments. Absolute return investments are typically made through limited partnerships which are hedge funds that utilize a broad array of investment strategies, including but not limited to market neutral, event driven, equity long/short,

Notes to Financial Statements (continued) (In Thousands)

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

global macro, or a combination of all of these strategies. Investments in common and collective trusts consist of units owned in commingled fund investment vehicles which are primarily invested in domestic and emerging market equity securities. The MPT owns units or shares of these investment vehicles representing the MPT's interest in the commingled fund.

The limited partnerships and commingled funds report NAV of the MPT's investments in such vehicles on a periodic basis to the MPT. ALIMCO performs due diligence of various degrees on these limited partnerships and commingled funds. Investments in limited partnerships and commingled funds are carried at fair value, which generally represent the MPT's proportionate share of net assets of limited partnerships that are organized as investment companies or that report their holdings at fair value and commingled funds as valued by the general partners or investment managers of these entities. For those limited partnerships that do not carry their holdings at fair value, ALIMCO will estimate fair value as described below.

ALIMCO follows its valuation policy, and other due diligence and investment procedures, which includes evaluating information provided by management of these vehicles, to determine that such valuations represent fair value. If ALIMCO determined that such valuations were not fair value, then ALIMCO would provide an estimate of fair value in good faith in accordance with its valuation policy. Due to the inherent uncertainty of valuation for these investment vehicles, ALIMCO's estimate of fair value for these limited partnerships may differ from the values that would have been used had a ready and liquid market existed for such investments, and such differences could be material.

The changes in fair values of the MPT's investments in limited partnerships are recorded as net appreciation/(depreciation) in fair value of investments on the schedule detailing investment income/(loss) of the MPT. The net asset values reported to MPT by the management of the limited partnerships are net of management fees charged to the MPT's capital account in such limited partnerships.

The fair value of the MPT's assets and liabilities which qualify as financial instruments approximates the carrying amounts presented in the schedule of net assets of the MPT.

At December 31, 2015 and 2014, cash and cash equivalents and cash equivalents held in the 401(h) accounts were primarily comprised of short term investment funds managed by JP Morgan and BNY Mellon. The MPT considers all highly liquid investment instruments with a maturity of three months or less at the time of purchase to be cash equivalents.

Notes to Financial Statements (continued)
(In Thousands)

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

At December 31, 2015 and 2014, due to/from broker was primarily comprised of margin posted for futures contracts.

Foreign Currency Transactions

Assets and liabilities denominated in a foreign currency are translated into U.S. dollars at the prevailing rates of exchange on the valuation date. Purchases and sales of investments are translated and recorded at rates of exchange prevailing when such investments were purchased or sold. Income and expenses are translated at rates of exchange prevailing when earned or accrued. The MPT does not isolate that portion of the results of operations resulting from changes in foreign currency exchanges rates on investments from fluctuations arising from changes in the valuation of investments. Accordingly, such foreign currency related gains and losses are included in net appreciation/depreciation in fair value of investments on the schedule detailing investment income/(loss) of the MPT.

Fair Value of Investments

In accordance with ASC 820, *Fair Value Measurement*, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in a timely transaction with an independent buyer in the principal market, or in the absence of a principal market, the most advantageous market for the asset or liability at the measurement date (an exit price). ASC 820 requires enhanced classification and disclosures about financial instruments carried at fair value and establishes a fair value hierarchy that prioritizes the inputs used in valuation models and techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical financial instruments (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The inputs are summarized in the three broad levels listed below:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities. The types of investments that are classified at this level typically include equities, futures contracts, certain options and U.S. Treasury obligations.

Notes to Financial Statements (continued)
(In Thousands)

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

Level 2 – Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly (inputs include quoted prices for similar assets or liabilities in active markets, interest rates and yield curves, credit risk assessments, etc.). The types of investments that are classified at this level typically include investment grade corporate bonds, convertible securities, asset backed securities, mortgage-backed securities, government agency securities, forward contracts, certain options, interest rate swaps, and credit default swaps.

Level 3 – Significant unobservable inputs for assets or liabilities. The types of assets and liabilities that are classified at this level include but are not limited to limited partnerships, private placement debentures, certain commingled funds, bank debt and real estate properties.

Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, for example, the risk inherent in a particular valuation technique used to measure fair value including such a pricing model and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable.

Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Furthermore, the fair value hierarchy does not correspond to a financial instrument's relative liquidity in the market or to its level of risk. Management assumes that any transfers between levels occur at the beginning of any period. Management's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the investment. The inputs or methodology used for valuing investments and their classification in the fair value hierarchy are not necessarily an indication of the risk associated with those investments.

¹ Included in limited partnership investments on the schedule of net assets of the MPT.

Net changes in unrealized appreciation/(depreciation) on assets still held as of December 31, 2015 amounted to (\$339,199) and are included in net appreciation/(depreciation) in fair value of investments on the schedule detailing investment income/(loss) of the MPT.

The MPT is required to disclose additional information regarding the nature of its investments in underlying funds when MPT uses the NAV reported by such underlying funds that calculate net asset value per share as a practical expedient in assessing fair value.

² Real Estate investments are valued utilizing appraisal reports. The primary valuation techniques used in the appraisal reports is Discounted Cash Flows.

³ Exit Capitalization rate is the interest rate at which the net income generated by the property is capitalized to arrive at a residual value at the estimated time of sale of the property.

⁴ Inputs are derived from engineering reserve reports and based on 15 year projections.

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

- (a) This category includes investments in hedge funds that invest in both long and short primarily in U.S. common stocks. Management of the hedge funds has the ability to shift its investment positions to different market segments (value/growth), market capitalization (small/large cap) and net long/short exposure as agreed to in the subscription documents of such hedge funds. Investments in this category can be redeemed at any time subject to the redemption notice period of each respective hedge fund. At December 31, 2015 this category held no assets in side pockets and at December 31, 2014 this category held 0.10% of assets in side pockets.
- (b) This category includes investments in hedge funds that invest in equities and fixed income to profit from economic, political and government driven events. At December 31, 2015 and 2014, this category held 6.35% and 8.92%, respectively, of assets in side pockets.
- (c) This category includes investments in hedge funds that pursue multiple strategies to diversify risks and reduce volatility. These multiple strategy hedge funds invest in common stock, fixed income securities, convertibles, distressed debt, merger arbitrage, macro and real estate securities. At December 31, 2015 and 2014, this category held 2.26% and 3.26%, respectively, of assets in side pockets. At December 31, 2015 and 2014, 41.0% and 39.1%, respectively, of the assets in this category are locked up.
- (d) This category includes investments in hedge funds that involve taking simultaneous long and short positions in closely related markets in both equities and fixed income instruments. This category of hedge funds has no investments held in side pockets.
- (e) This category is designed to take advantage of a specific and/or timely investment opportunity due to a market dislocation or similar event. At December 31, 2015 and 2014, 31.01% and 100%, respectively, of the assets in this category were locked up. It is estimated that the assets will be realized over the next three to five years.
- (f) This category generally refers to strategies that are more directional in nature, although they can shift opportunistically between having a directional bias and a non-directional bias. This category of hedge funds has no investments held in side pockets.
- (g) This category includes oil and gas and real estate funds that invest in the U.S., Europe and Asia. The fair values of the investments in this category have been estimated using the net asset value of the MPT's ownership interest in partners' capital or discounted cash flows. These investments cannot be redeemed. Distributions from these funds will be received as the underlying investments of the funds are liquidated. It is estimated that the assets of the funds will be liquidated over the next five to ten years.

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

- (h) This category includes venture capital funds that typically invest in equity securities of start-up and growth oriented companies primarily domiciled in the U.S. and Western Europe. The venture capital funds are invested across various sectors including healthcare, information technology, computer hardware, and materials. The fair values of the investments in this category have been estimated using the net asset value of the MPT's pro-rata interest in each fund. These investments cannot be redeemed. Distributions from these funds will be received by the MPT as the underlying assets in each fund are liquidated, typically a period of five to ten years from inception of the funds.
- (i) This category includes buyout funds that typically invest in the equity of mature operating companies primarily domiciled in the U.S. and Western Europe. The buyout funds are invested across various sectors including healthcare, technology, energy, financial and business services, manufacturing, transportation, and consumer. The fair values of the investments in this category have been estimated using the net asset value of the MPT's pro-rata interest in each fund. These investments cannot be redeemed. Distributions from these funds will be received by the MPT as the underlying assets in each fund are liquidated, typically over a period of five to ten years from inception of the funds.
- (j) This category includes fund of funds, debt funds and distressed-oriented funds, structured as private equity vehicles. The special situation funds invest in the debt or equity securities of companies primarily domiciled in the U.S., Western Europe and Asia. The special situations funds are generally sector agnostic, and are invested across a diversified spectrum of industries. The fair value of investments in this category is measured using the aggregate net asset value of the MPT's pro-rata interest in each fund. These investments cannot be redeemed. Distributions are received by the MPT as the underlying assets in each fund are liquidated, typically over a period of five to ten years from inception of the funds.

Guarantees and Commitments

ASC 815 Derivative and Hedging requires a seller of credit derivative to disclose (i) the nature and terms of the credit derivative, reasons for entering into the credit derivative, the events or circumstances that would require the seller to perform under the credit derivative, and the current status of the payment/performance risk of the credit derivative, (ii) the maximum potential amount of future payments (undiscounted) the seller could be required to make under the credit

Notes to Financial Statements (continued) (In Thousands)

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

derivative, (iii) the fair value of the credit derivative, and (iv) the nature of any recourse provisions and assets held either as collateral or by third parties. It also requires additional disclosures about the current status of the payment/performance risk of a guarantee.

In the normal course of trading activities, the MPT will trade and hold certain derivative contracts which constitute guarantees under U.S. GAAP. Such contracts include written put options and credit default swaps where MPT is providing credit protection on an underlying instrument. For credit default swaps, the credit rating, obtained from external credit agencies, reflects the current status of the payment/performance risk of a credit default swap. Management views performance risk to be high for derivative contracts whose underlying credit ratings are below BBB-.

As of December 31, 2015:

At December 31, 2014, the MPT held one written put option contract that expired in February 2015. The maximum payout for a written put option is limited to the number of contracts written and the related strike prices and amounted to \$78. The fair value of the written put options was (\$8) which is located in options written at fair value on the schedule of net assets of the MPT.

Securities Lending

The MPT participates in an agency securities lending program with BNYMellon Bank, N.A. (BNYMellon Bank), an affiliate of the Master Trustee. The securities lending agreement requires that the MPT receive U.S. Dollar cash or securities issued or guaranteed by the United States Government or its agencies or instrumentalities, or certain sovereign debt securities as collateral for securities on loan. Collateral equaling 102% of the fair value of domestic securities and 105% of the total fair value of non-U.S. securities on loan is required in accordance with the agreement. As of December 31, 2015 and 2014, the fair value of the securities on loan was \$2,429,417 and \$3,552,503, respectively. Such securities are recorded on the schedule of net assets of the MPT. The MPT received collateral from borrowers in the form of cash and securities. The MPT has the ability to repledge (rehypothicate) the cash, however the securities cannot be repledged. As of December 31, 2015 and 2014, the MPT held cash collateral of \$1,824,534 and \$3,153,143, respectively, in connection with loaned securities. The cash collateral was used to enter into repurchase agreements and to purchase various securities consistent with the investment guidelines including asset-backed floating notes, floating rate notes, commercial paper, certificates of deposit and time deposits. The fair value of these investments acquired with the cash collateral are \$1,824,052 and \$3,152,983 at December 31, 2015 and 2014, respectively, and are included in the cash collateral invested in fixed income securities and repurchase agreements on the schedule of net assets of the MPT.

The securities received as collateral for loaned securities which cannot be sold or repledged included U.S. Treasuries and sovereign debt securities with fair values of \$694,249 and \$468,113 at December 31, 2015 and 2014, respectively. Such securities are not reflected in the MPT's assets and liabilities. The MPT received interest and securities lending income in the amount of \$6,644 in 2015 from the securities lending program; this income is included in other income on the schedule detailing investment income/(loss) of the MPT.

Notes to Financial Statements (continued)
(In Thousands)

5. Interest in Lucent Technologies Inc. Master Pension Trust (continued)

Under the repurchase agreements, the MPT acquires a security for cash subject to an obligation by the counterparty to repurchase, and the MPT to resell, the security at an agreed upon price and time. In these transactions, the MPT takes possession of securities collateralizing the repurchase agreement. The collateral is marked to market daily to ensure that the fair value of the assets remains sufficient to protect the MPT in the event of default by the seller. As of December 31, 2015 and 2014, repurchase agreements entered into with cash collateral were carried at \$576,352 and \$986,866, respectively, and the fair value of securities which the MPT held as collateral with respect to such repurchase agreements was \$596,676 and \$1,020,707, respectively. The carrying amounts approximate fair value and are recorded on the schedule of net assets of the MPT in fixed income securities and repurchase agreements acquired with cash collateral.

The following table summarizes the terms of the MPT's repurchase agreements that are embedded in the securities lending program for the year ending December 31, 2015:

| | Remaining Contractual Maturity of Agreements | | | | | | | | | | | |
|-------------------------------------|--|-----------|---------------------|---|------------|---------|----|-------------|----|-----------|--|--|
| | Overnight and | | | | | | G | reater than | | | | |
| Description | C | ontinuous | nuous Up to 30 Days | | 30-90 Days | | | 90 Days | No | et Amount | | |
| Repurchase Agreements | | | | | | | | | | | | |
| U.S. Treasury and agency securities | \$ | 403,456 | \$ | _ | \$ | _ | \$ | _ | \$ | 403,456 | | |
| Corporate bonds | | 9,604 | | _ | | _ | | _ | | 9,604 | | |
| Equity securities | | _ | | _ | | 100,000 | | 63,292 | | 163,292 | | |
| Total | \$ | 413,060 | \$ | _ | \$ | 100,000 | \$ | 63,292 | \$ | 576,352 | | |

The MPT bears the risk of loss with respect to the investments purchased with the cash collateral except for repurchase agreements which are indemnified by BNYMellon Bank. BNYMellon Bank has agreed to indemnify the MPT in the case of default of any borrower pursuant to respective securities lending agreements.

Notes to Financial Statements (continued) (In Thousands)

6. Derivative Financial Instruments

In the ordinary course of business, the MPT enters into various types of derivative transactions through its discretionary Investment Advisors. Derivative contracts serve as components of the MPT's investment strategies and are utilized primarily to hedge investments to enhance performance and reduce risk to the MPT, as well as for speculative purposes.

Under U.S. GAAP, the MPT is required to disclose its objectives and strategies for using derivatives by primary underlying risk exposure; information about the volume of derivative activity; disclosures about credit-risk-related contingent features, and concentrations of credit-risk derivatives. Additionally, U.S. GAAP requires the quantitative disclosures of the location and gross fair value of derivative instruments reported in the schedule of net assets of the MPT and the gains and losses generated from derivative investing activity during the year ended December 31, 2015 on the schedule detailing investment income/(loss) of the MPT.

The MPT invests in derivative contracts with underlying exposure to interest rate risk (interest rate risk contracts) which consist of interest rate swaps, futures contracts and option contracts on fixed income securities; equity and fixed income price risk (equity and fixed income price risk contracts) which consists of index futures and option contracts on fixed income securities; credit risk (credit risk contracts) which consist of credit default swaps and total return swaps; and foreign currency risk (foreign currency risk contracts) which consist of futures and foreign exchange contracts.

Futures Contracts

Futures contracts are commitments to purchase or sell securities based on financial indices at a specified price on a future date. The MPT's Investment Advisors use index futures contracts to manage both short-term asset allocation and the duration of the fixed income portfolio. Most of the contracts have terms of less than one year. The credit risk of futures contracts is limited because they are standardized contracts traded on organized exchanges and are subject to daily cash settlement of the net change in value of open contracts. Fluctuation in unrealized gain or loss related to other futures contracts is recorded daily until realized on closing. Both realized and unrealized gain or loss are included in net appreciation/(depreciation) in fair value of investments on the schedule detailing investment income/(loss) of the MPT. Futures contracts require collateral consisting of cash or liquid securities and daily variation margin settlements to

Notes to Financial Statements (continued)
(In Thousands)

6. Derivative Financial Instruments (continued)

be provided to brokers. Outstanding futures contracts held by the MPT consist primarily of S&P 500 index futures, Eurodollar futures and U.S. Treasury Note and exchange index futures. The total net fair value of futures contracts at December 31, 2015 and 2014 was \$5,393 and \$28,634, respectively, and are included in futures contracts assets and liabilities on the schedule of net assets of the MPT.

Forward Foreign Exchange Contracts

In a forward foreign exchange contract, one currency is exchanged for another on an agreed upon date at an agreed upon exchange rate. The MPT's Investment Advisors use forward foreign exchange contracts to manage the currency risk inherent in owning securities denominated in foreign currencies and to enhance investment returns. Risks arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts and from fluctuations in the value of a foreign currency relative to the U.S. dollar or U.S. Treasury security. Most of the contracts have terms of ninety days or less and are settled in cash on settlement of the contract. The change in fair value of such contracts is recorded by the MPT as an unrealized gain or loss in net appreciation/(depreciation) in fair value of investments in the schedule detailing investment income/(loss) of the MPT. When the contract is closed, the MPT records a realized gain or loss equal to the difference between the cost of the contract at the time it was opened and the value at the time it was closed. Both realized and unrealized gain/loss are included in net appreciation/(depreciation) in fair value of investments on the schedule detailing investment income/(loss) of the MPT.

As of December 31, 2015 and 2014, the MPT held open forward foreign exchange contracts receivable and payable primarily in Australian Dollars, New Zealand Dollars, Japanese Yen, Swiss Francs, British Pounds, Mexican Peso, Euros and U.S. dollars. The total net fair value of forward foreign exchange contracts at December 31, 2015 and 2014 was \$3,674 and \$3,042, respectively, which is included in forward foreign exchange contracts on the statements of net assets of the MPT.

Notes to Financial Statements (continued)

6. Derivative Financial Instruments (continued)

Options

Options are contracts entitling the holder to purchase or sell a specified number of shares or units of a particular security at a specified price at any time until the contract's stated expiration date. Premiums paid for options purchased are recorded as investments and premiums received for options written/sold are recorded as liabilities. When securities are acquired or delivered upon exercise of an option, the acquisition cost or sale proceeds are adjusted by the amount of the premium. When an option is closed, the difference between the premium and the cost to close the position is realized as a gain or loss. When an option expires, the premium is realized as a gain for options written or as a loss for options purchased. Both realized and unrealized gain/loss are included in net appreciation/(depreciation) in fair value of investments on the schedule detailing investment income/(loss) of the MPT. The risks include price movements in the underlying securities, the possibility that options markets may be illiquid, or the inability of the counterparties to fulfill their obligations under the contracts.

As of December 31, 2015 and 2014, the MPT held written option contracts with a fair value of \$22 and \$323, respectively, which are included in options written on the schedule of net assets of the MPT. The written option contracts are primarily options on currency futures and options on fixed income securities. As of December 31, 2015 and 2014, the MPT has purchased options of \$90 and \$1,187, respectively, which are included in options purchased at fair value on the schedule of net assets of the MPT.

Swap Contracts

Swap contracts involve the exchange by the MPT with another party of their respective commitments to pay or receive a series of cash flows calculated by reference to changes in specified prices or rates throughout the lives of the agreements. A realized gain or loss is recorded upon termination or settlement of swap agreements. Unrealized gains or losses are recorded based on the fair value of the swaps. Both realized and unrealized gain and loss are included in net appreciation/(depreciation) in fair value of investments on the schedule detailing investment income/(loss) of the MPT. The Investment Advisors retained by the MPT enter into interest rate swaps as part of their investment strategy to hedge exposure to changes in interest rates and to enhance investment returns. The Investment Advisors also enter into credit default swaps in order to manage the credit exposure in the portfolio and to enhance investment returns.

Notes to Financial Statements (continued)
(In Thousands)

6. Derivative Financial Instruments (continued)

A credit default swap represents an agreement in which one party, the protection buyer, pays a fixed fee, the premium, in return for a payment by the other party, the protection seller, contingent upon a specified default event relating to an underlying reference asset or pool of assets. While there is no default event, the protection buyer pays the protection seller the periodic premium. If the specified credit event occurs, there is an exchange of cash flows and/or securities designed so that the net payment to the protection buyer reflects the loss incurred by creditors of the reference credit in the event of its default. The nature of the credit event is established by the buyer and seller at the inception of the transaction and such events include bankruptcy, insolvency, rating agency downgrade and failure to meet payment obligations when due. Risks may arise from unanticipated movements in interest rates or the occurrence of a credit event whereby changes in the market values of the underlying financial instruments may be in excess of the amounts shown in the schedule of net assets of the MPT.

As of December 31, 2015 and 2014, the MPT had outstanding swap contracts consisting primarily of interest rate swap and credit default swap contracts. The fair value of swap contracts that is included in assets under swap contracts in the schedule of net assets of the MPT at December 31, 2015 and 2014 was \$7,220 and \$6,050, respectively. The fair value of swap contracts that are included in liabilities under swap contracts in the schedule of net assets of the MPT at December 31, 2015 and 2014 was \$26,769 and \$33,294, respectively.

The MPT utilizes its Investment Advisors to conduct derivative trading on its behalf. Investment Advisors enter into International Swaps and Derivative (ISDA) Master Agreements with counterparties. The ISDA Agreements contain master netting arrangements that allow amounts owed from the counterparty to be offset with amounts payable to the same counterparty within the same Investment Advisors account within the MPT. Each Investment Advisor retains separate ISDA agreements with the MPT's counterparties. Cash collateral associated with the derivatives have not been added or netted against the fair value amounts.

Information about Derivative Instruments and Derivative Activity

The following table sets forth the gross fair value of MPT's derivative asset and liability contracts by major risk type as of December 31, 2015 and 2014, and their location on the schedule of net assets of the MPT. The fair values of these derivatives are presented on a gross basis, prior to the application of the impact of counterparty and collateral netting as permitted by the MPT's Investment Advisors' bilateral ISDA Master Agreements.

(In Thousands)

6. Derivative Financial Instruments (continued)

Credit-Risk Related Contingent Features

The MPT's derivative contracts are subject to ISDA Master Agreements at the Investment Advisor account level. The ISDA agreements contain certain covenants and other provisions that may affect the Investment Advisors account within the MPT in situations where the MPT is in a net liability position with its counterparties. These provisions require the MPT's Investment Advisor's account within the MPT maintain a certain level of net assets or limit the size of certain liability positions. If the MPT were not to meet such provisions, the counterparties to the derivative instruments could, depending on the nature of the agreements, either require the account to post additional collateral in amounts representing a multiple of the original collateral amounts required pursuant to the ISDA Master Agreements or terminate their derivative positions with the account and request immediate payment on all open derivative contracts, after the application of master netting arrangements (credit-risk-related contingent features).

The aggregate fair value of all derivative instruments with credit-risk-related contingent features that are in a liability position, prior to the application of master netting arrangements, as of December 31, 2015 and 2014 was \$26,769 and \$33,294, respectively, for which the MPT had posted collateral of \$34,058 and \$28,387, respectively, in the normal course of business. If the credit-risk-related contingent features underlying these instruments in a liability position had been triggered as of December 31, 2015 and 2014 (after offsetting any applicable collateral), and the MPT had to settle these instruments immediately, the MPT would have been required to pay the total amount of the net liability stated above upon demand of the counterparties. The ultimate amounts that may be required as payment to settle the derivative positions in connection with the triggering of such credit contingency features at December 31, 2015 may be different than the net liability amounts stated at December 31, 2015 and such differences could be material.

Off-Setting Effects

The MPT is required to disclose the impact of offsetting assets and liabilities presented in the schedule of net assets of the MPT to enable users of the financial statements to evaluate the effect or potential effect of netting arrangements on its financial position for recognized assets and liabilities. The assets and liabilities that would be subject to offsetting are derivative instruments that are either subject to an enforceable master netting arrangement or similar agreement or meet the following right of setoff criteria: the amounts owed by the MPT to another party are determinable, the MPT has the right to set off the amounts owed with the amounts owed by the other party, the MPT intends to offset, and the MPT's right of setoff is enforceable by law.

Notes to Financial Statements (continued) (In Thousands)

6. Derivative Financial Instruments (continued)

When the MPT has a basis to conclude that a legally enforceable netting arrangement exists between the MPT and the counterparty, the MPT may offset these assets and liabilities in its schedule of net assets of the MPT. The MPT records its derivative investments on a gross basis in the schedule of net assets of the MPT.

The following tables provide disclosure regarding the potential effect of offsetting recognized assets and liabilities presented in the schedule of net assets of the MPT had the MPT applied these netting provisions:

For the Year Ending December 31, 2015:

7. Off-Balance Sheet Risk and Risk Concentrations

In the normal course of its business, the MPT trades various financial instruments and enters into various investment activities with a variety of risks including market, credit, liquidity, and risks associated with foreign investing. Additionally, the MPT bears certain risks related to conducting business with its counterparties.

The MPT does not offset in the schedule of net assets of the MPT.
 Swaps and options that are subject to the same ISDA agreement and allowable netting arrangements have been combined.

Notes to Financial Statements (continued)
(In Thousands)

7. Off-Balance Sheet Risk and Risk Concentrations (continued)

Market risk is the risk of potential adverse changes to the value of financial instruments resulting from changes in market prices. If the markets should move against one or more positions in any of the financial instruments the MPT holds, the MPT could incur losses greater than the amounts reflected in the schedule of net assets of the MPT. The MPT's exposure to market risk may be due to many factors, including the movements in interest rates, foreign exchange rates, indices, market volatility, and security values underlying derivative instruments.

The MPT trades in derivatives (as described in Note 6), which may include financial futures contracts, forward foreign currency contracts, swaps, and options. These instruments contain, to varying degrees, elements of credit and market risk such that potential maximum loss is in excess of the amounts recognized in the financial statements. The contract or notional amounts of these instruments, which are not included in the financial statements, are indicators of the MPT's activities in particular classes of financial instruments, but are not indicative of the associated risk which is generally a smaller percentage of the contract or notional amount. In addition, the measurement of market risk is meaningful only when all related and offsetting transactions are taken into consideration. The MPT is subject to market risk with regard to these instruments as it may not be able to realize benefits of the financial instruments and may realize losses, if the value of underlying assets moves unexpectedly because of changes in market conditions.

The MPT enters into forward foreign currency contracts, swaps, options and security lending with various counterparties; therefore the MPT is exposed to credit risk with such counterparties. Management seeks to limit its credit risk by requiring its counterparties to provide collateral based upon the value of contractual obligations.

Credit risk is the risk that the MPT would incur losses if its counterparties failed to perform pursuant to the terms of their respective obligations or fulfill their obligations to repay amounts being held on behalf of the MPT.

The collateral provided by the counterparties is included in investments and due to brokers on the schedule of net assets of the MPT. Furthermore, management requires the MPT's Investment Advisors have in place a well-defined counterparty selection and collateral process and procedures to transact its securities and other investment activities with broker-dealers, banks, and regulated exchanges that the Master Trustee and Investment Advisors consider to be well-established and financially sound.

Notes to Financial Statements (continued)
(In Thousands)

7. Off-Balance Sheet Risk and Risk Concentrations (continued)

The MPT invests in various U.S. and international equity and debt securities. The ability of the issuers of debt securities held by the MPT to meet their obligations may be affected by unique economic developments in a specific country, region, or industry. Until the fixed income securities are sold or mature, the MPT is exposed to credit risk relating to whether the bond issuer will meet its obligation when it becomes due. Failure of the bond issuer to make payments of principal or interest upon the default of the underlying security may result in losses to the MPT. Investing in securities of foreign entities involves special risks which include the possibility of future political and economic developments which could adversely affect the value of such securities. Moreover, securities of many foreign entities may be less liquid and their prices may be more volatile than those of comparable U.S. entities.

The MPT invests in private equity, real estate and absolute return investments, which are illiquid, can be subject to various restrictions on resale, and there can be no assurance that the MPT will be able to realize the value of such investments in a timely manner. Certain absolute return investments are subject to a "lock up" period on the MPT's initial investment. As such, there is no assurance that the MPT can realize the value of certain absolute return investments in a timely manner. The MPT's investments in limited partnerships are subject to various risk factors arising from the investment activities of the underlying vehicles including market, credit and currency risk. Certain partnerships owned by the MPT may transact in short currency contracts, futures, written, and purchased options and swaps exposing the investee partnership to market risk such that potential maximum loss is in excess of the amounts recorded in the limited partnerships' financial statements. The MPT's risk of loss is limited to the value of the investments as of December 31, 2015 and 2014, including any unfunded commitments.

8. Party-In-Interest and Related-Party Transactions

As described in Note 2, the Plan paid certain investment and administrative expenses of the Plan to various service providers, which are parties-in-interest under the provisions of ERISA. The payment of these expenses meets the requirements of one or more prohibited transaction exemptions under ERISA.

Certain MPT investments include the Company's fixed income securities. However, such fixed income securities constitute "qualifying employer securities" within the meaning of section 407 of ERISA, and therefore these investments do not constitute party-in-interest transactions.

Notes to Financial Statements (continued)
(In Thousands)

9. Subsequent Events

Management has evaluated subsequent events through October 5, 2016, the date the financial statements were available to be issued. There were no material subsequent events that occurred between January 1, 2016 through October 5, 2016 that required disclosure in the financial statements, except as follows:

In January 2016, Nokia Corporation, a Finnish corporation headquartered in Helsinki, Finland, acquired a controlling interest (greater than 50%) in Alcatel Lucent, the (indirect) parent of the Company, the sponsoring employer and administrator of the Plan. In February 2016, Nokia's interest in Alcatel Lucent exceeded 80%, making Nokia the Company's ultimate parent. Notwithstanding this change in the identity of the Company's ultimate parent, the Company continues to be the sponsoring employer and administrator of the Plan.

Decrement Timing Middle of year decrements

EIN: 22-3408857 PN: 001

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Surviving Spouse Benefit The female spouse of a male participant is

assumed to be three years younger than the male

participant. The male spouse of a female

participant is assumed to be two years older than

the female participant.

Benefit Limits Projected benefits are limited by the current IRC

section 401(a)(17) limit of \$265,000 and the current

section 415 maximum benefit of \$210,000.

Valuation of Plan Assets Smoothed fair market value of assets over the

current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of

fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed

toward understatement relative to the

corresponding market values for expected longterm rates of return in excess of the third segment

rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets

2013 Plan Year 6.50% limited to 6.76% 2014 Plan Year 6.25% limited to 6.99%

Actuarial Method Standard unit credit cost method

EIN: 22-3408857 PN: 001

Schedule SB, Line 13(a) – Carryover Balance at Beginning of Current Year

The carryover balance as of 1/1/2015 of \$144,230,253 reflects the following adjustments:

- (1) The amount of \$1,111,704 [i.e. \$980,944 plus \$130,760 interest] transferred from Lucent Technologies Inc. Pension Plan (PN 002) to Alcatel-Lucent Retirement Income Plan (PN 001) as a result of the true-up for internal transfers of certain participants during 2013 (referred to as "Phase III" transfers), and
- (2) The amount of \$28,309 transferred from Lucent Technologies Inc. Retirement Plan (PN 007) to Alcatel-Lucent Retirement Income Plan (PN 001) as a result of internal plan transfers during 2014.

Decrement Timing Middle of year decrements

EIN: 22-3408857 PN: 001

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Surviving Spouse Benefit The female spouse of a male participant is

assumed to be three years younger than the male

participant. The male spouse of a female

participant is assumed to be two years older than

the female participant.

Benefit Limits Projected benefits are limited by the current IRC

section 401(a)(17) limit of \$265,000 and the current

section 415 maximum benefit of \$210,000.

Valuation of Plan Assets Smoothed fair market value of assets over the

current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of

fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed

toward understatement relative to the

corresponding market values for expected longterm rates of return in excess of the third segment

rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets

2013 Plan Year 6.50% limited to 6.76% 2014 Plan Year 6.25% limited to 6.99%

Schedule SB, Part V – Summary of Plan Provisions

The following summary describes principal plan provisions assumed in calculating the cost of your pension plan.

General Information

History

The Alcatel-Lucent Retirement Income Plan ("ALRIP" or the "Plan") was established as of October 1, 1996 as a result of the restructuring of AT&T. Assets and liabilities for active, inactive, and retired participants in the AT&T Management Pension Plan ("AT&T MPP") as of that date associated with the business of Lucent Technologies Inc. pursuant to the restructuring were spun off from the AT&T MPP to the Plan. The Plan provisions as of the date of the spin-off were the same as those of the AT&T MPP as of the date of the spin-off. All prior service and compensation under the AT&T MPP were counted for benefit and eligibility purposes under the Plan. At the time of the spin-off, the Plan was called the Lucent Technologies Inc. Management Pension Plan. The Plan was later renamed the Lucent Retirement Income Plan and, still later, the Alcatel-Lucent Retirement Income Plan.

Plan Provisions

The Plan is a noncontributory defined benefit plan generally covering domestic management employees. During 2009, the Plan consisted of four distinct pension benefit programs: (1) the legacy-Lucent "Service-Based Program" (generally, for employees hired before 1999), (2) the legacy-Lucent "Account-Balance Program" (generally, for employees hired after 1998 and before 2008 and for employees of acquired companies), (3) the (frozen) plan design associated with the former AGCS Salaried Pension Plan, and (4) the (frozen) plan design associated with the former Alcatel USA, Inc. ("AUSA") Consolidated Retirement Plan. Effective December 31, 2009, benefit accruals under (1) and (2) were also frozen. The Plan provisions described herein are for the legacy-Lucent Service-Based Program and legacy-Lucent Account-Balance Program only (although, as noted, the values presented herein reflect the AGCS plan merger, the AUSA plan merger and the ADNI plan merger).

Certain participants can transfer their accumulated interest in the Plan to and from other plans covered by the Mandatory Portability Agreement (MPA), as their employment status changes. The MPA was established in response to federal legislation mandating the continued portability of certain benefits among former Bell companies subsequent to the court ordered divestiture of the former Bell system as of January 1, 1984.

In 2006, MPA eligible management employees hired by Alcatel-Lucent on or after April 1, 2004 who do not waive MPA coverage will participate in ALRIP under the service-related formula if they are either (a) eligible to retire under the prior plan at termination or (b) eligible for immediate bridging under the ALRIP.

In 2006, Plan participants who are covered under the MPA and hired by Alcatel-Lucent after 1998 but prior to April 1, 2004 will be given the option to participate under the Account Balance Program or the Service Based Program. Such employees who choose to be covered under the Service Based Program will be provided with postretirement life and health benefits consistent with other participants covered by the service-related formula.

The Alcatel USA, Inc. Consolidated Retirement Plan was merged into the ALRIP effective March 1, 2007.

EIN: 22-3408857 PN: 001

Schedule SB, Part V – Summary of Plan Provisions

Normal Retirement Age and Vesting

The Normal Retirement Age is age 65 with the completion of 5 years of vesting service. Employees with at least 5 years of vesting service are 100% vested in their pension benefit. Employees who terminate with less than 5 years of vesting service are not vested and are not entitled to any benefits under the Plan. However, all participants who were active as of December 26, 2001 are 100% vested as a result of the requirements of Section 420 of the Internal Revenue Code, in connection with the transfer of excess LRIP assets to cover retiree medical claims. All participants who were active as of December 31, 2009 are 100% vested as a result of the plan amendment freezing further benefit accruals.

Employees Hired Before 1999

Pension Amount

For a retirement or vested termination on or after October 19, 1993, but prior to January 1, 1997, the annual pension amount under LRIP was equal to item (1) below. For retirement or vested termination on or after January 1, 1997, but prior to January 1, 1998, it was equal to item (1) below, for monthly benefits paid prior to January 1, 1998, and it was equal to the greater of items (1) or (2) below for monthly benefits paid January 1, 1998, and thereafter. For retirement or vested termination on or after January 1, 1998, but prior to January 1, 1999, the annual pension amount under LRIP is equal to the greatest of items (1), (2) or (3) below. For retirement or vested termination on or after January 1, 1999, it is equal to the greatest of items (1), (2), (3) or (4) below.

- (1) The prior early retirement reduction applied to a frozen benefit of 1.6% of the sum of six-year average compensation for 1987 through 1992 times Net Credited Service as of December 31, 1992, plus total compensation for 1993 through 1997.
- (2) The prior early retirement reduction applied to a transition benefit of 1.6% of the sum of six-year average compensation for 1991 through 1996 times all Net Credited Service prior to January 1, 2001.
- (3) The current early retirement reduction applied to a 1998 benefit of 1.4% of the sum of five-year average compensation for 1993 through 1997 times Net Credited Service as of December 31, 1997, plus total compensation for 1998.
- (4) The current early retirement reduction applied to an ongoing benefit of 1.4% of the sum of five-year average compensation for 1994 through 1998 times Net Credited Service as of December 31, 1998, plus total compensation after December 31, 1998, plus an extra bonus in 1997.

Prior Early Retirement Reduction and Retirement Eligibility

Employees who meet the following age and service requirements may retire with a service pension:

| | | Minimum |
|-----|-----|-------------------------------|
| Age | _ | Years of Net Credited Service |
| 65 | and | 10 |
| 55 | and | 20 |
| 50 | and | 25 |
| Any | | 30 |
| | | |

Schedule SB Attachment (Form 5500)—2015 Plan Year

Alcatel-Lucent Retirement Income Plan

EIN: 22-3408857 PN: 001

Schedule SB, Part V – Summary of Plan Provisions

For employees who retire with at least 30 years of Net Credited Service, the early retirement reduction is 0.25% (0.5% with less than 30 years) for each full or partial month by which the employee's age at retirement is less than 55 years.

Certain terminated vested participants may elect to receive pension benefits commencing prior to age 65 reduced on an actuarially equivalent basis.

Current Early Retirement Reduction and Retirement Eligibility

Employees may retire at age 50 or older with at least 15 years of Net Credited Service. The early retirement reduction is the product of 3% times the excess, if any, of 75 over the sum of age and Net Credited Service at retirement.

Certain terminated vested participants may elect to receive reduced pension benefits commencing prior to age 65 on an actuarially equivalent basis.

Disability Pension

An employee with at least 15 years of service who becomes totally and permanently disabled retires with a disability pension. The disability pension is not subject to early retirement reduction.

In 2002, the disability pension benefits began to be paid from the pension trust fund. Previously, these benefits were paid from Company operating funds

Payment of Annuities

The full monthly benefit is paid at the end of each month of retirement up to and including the end of the month in which the annuitant dies.

Form of Payment Options

An employee who terminates with a vested accrued benefit with a present value of \$1,000 or less, prior to attaining early retirement eligibility, will automatically receive a lump sum of that present value.

Any other employee who terminates with a vested accrued benefit prior to attaining early retirement eligibility may elect to commence receipt of pension benefits either immediately or deferred to any age up through age 65 in one of the following forms:

- Single Lump Sum of the present value of the deferred vested benefit if (in the case of an employee who is legally married) the spouse provides written notarized consent.
- Single Life Annuity if (in the case of an employee who is legally married) the spouse provides written notarized consent.
- Actuarially reduced 50% Joint and Survivor Annuity with pop-up with the spouse as a joint annuitant if the employee is legally married.

Any employee who retires on or after attaining early or normal retirement eligibility may elect to commence receipt of pension benefits immediately in one of the following forms:

EIN: 22-3408857 PN: 001

Schedule SB, Part V – Summary of Plan Provisions

- Single Life Annuity if (in the case of an employee who is legally married) the spouse provides written notarized consent.
- Actuarially reduced 50% Joint and Survivor Annuity with pop-up with the spouse as a joint annuitant if the employee is legally married.
- Actuarially reduced 75% Joint and Survivor Annuity with pop-up with the spouse as a joint annuitant if the employee is legally married.
- Actuarially reduced 100% Joint and Survivor Annuity with pop-up with the spouse as a joint annuitant
 if the employee is legally married and the spouse provides written notarized consent.
- Actuarially reduced 10 Year Certain and Life Annuity if (in the case of an employee who is legally married) the spouse provides written notarized consent.

In 2004, the charge for surviving spouse coverage for death of terminated vested participants before pension payments begin was eliminated. Also, for former employees entitled to a deferred vested pension and whose annuity start date is January 1, 1998 or later, if the spouse dies after the joint and survivor pension has commenced, payments to the participant will be increased to the original amount prior to the joint and survivor reduction.

In 2005, an employee who terminates with a vested accrued benefit with a present value of \$1,000 or less (previously \$5,000) will automatically receive a lump sum of the present value.

Effect of Prior Voluntary/Involuntary Downsizing Programs

- In 2001, an early retirement incentive program was offered to certain employees within five years of retirement eligibility. In this program age and service of the employees were increased by five years for retirement eligibility, early retirement discount and benefit accrual. Also, the participation rules were improved to allow employees to participate immediately at hire regardless of age.
- In 2001, 2002 and 2003 certain employees were involuntarily terminated and offered additional benefits they could take as a pension or a lump sum.

Death Benefits

Effective January 1, 2003, the death benefit of one year's pay at retirement was removed from the plan for retirees who retired prior to January 1, 1998. For employees retiring on or after January 1, 1998 the death benefit was removed effective January 1, 1998.

The surviving spouse of a vested active employee who dies with a term of employment of less than 15 years is awarded an automatic annuitant's pension equal to 50% of the amount the employee would have received at age 65 had the employee terminated on the date of death with a deferred vested pension and elected a 50% joint and survivor annuity. Payments to the surviving spouse begin at the time the deceased employee would have attained age 65.

EIN: 22-3408857 PN: 001

Schedule SB, Part V – Summary of Plan Provisions

In the case of a vested active employee with a term of employment at the time of death of at least 15 years, the automatic annuitant's pension commences immediately and is equal to 50% of the amount the employee would have received had such employee retired with a service pension, as of the date of death having elected a 50% joint and survivor annuity, and without any discount for early retirement.

Employees Hired After 1998 and Employees of Acquired Companies

Account Balance Plan

Employees of companies acquired by Lucent after October 1, 1996 and management employees and non represented occupational employees hired after 1998 participate under an account balance design:

(1) Pay Credits:

| <u>Age</u> | % of Previous Year's Pay |
|------------|--------------------------|
| <30 | 3.00% |
| 30-34 | 3.75% |
| 35-39 | 4.50% |
| 40-44 | 5.50% |
| 45-49 | 6.50% |
| 50-54 | 8.25% |
| 55+ | 10 00% |

- (2) Interest credits: 6.5% in 2000, 7% in 2001, 6.5% in 2002 and 4% thereafter.
- (3) Partial interest credits and pay credits will be given for the year in which an employee terminates.

After December 31, 2009, participants in the Account Balance Program are no longer credited with pay credits.

AUSA

Effective March 1, 2007, the AUSA Consolidated Retirement Plan was merged into the LRIP. Benefits for AUSA participants are currently frozen. The pension benefit under this plan has a cash balance feature.

ADN

Effective July 1, 2010, the Alcatel Data Networks Inc. Retirement Pension Plan was merged into the ALRIP. Benefits for ADN participates are currently frozen.

Plan Amendments Prior to 2015

- Effective January 1, 2008, the Plan was amended to include language to comply with PPA'06 requirements (e.g. including Joint and 75% Survivor option, new mortality and interest assumptions).
- The Plan is closed to new entrants on or after January 1, 2008.

EIN: 22-3408857 PN: 001

Schedule SB, Part V – Summary of Plan Provisions

- Effective January 1, 2008, employees covered under the Account Balance Program of the Plan will be fully vested in their pension benefits in three years.
- Effective November 1, 2008, the Plan was amended to permit former AUSA employees who terminate employment for any reason other than retirement, death or disability to request an immediate distribution of their deferred vested pension benefit at any time following such termination of employment.
- In 2009, the Plan was amended to include retroactive plan amendments required by IRS in connection with the favorable determination letter (i.e. GUST submission, Compliance statement).
- Effective May 1, 2009, the Plan was amended to increase the survivor benefit for active employees
 with a service based pension benefit who have at least 15 years of service or are retirement eligible
 to a Joint and 100% survivor benefit.
- On November 30, 2009, the Plan was amended, retroactive to January 1, 2009 to allow the nonspousal beneficiary to rollover a distribution to a retirement account.
- Effective December 31, 2009, the Plan was amended to freeze all benefit accruals and to fully vest all actives.
- Effective July 1, 2010, the Alcatel Data Networks (ADN) Plan was merged with and into the Plan, with the Plan being the surviving Plan.
- Effective December 1, 2010, a certain group of participants from the Lucent Technologies Inc. Pension Plan was transferred into the ALRIP. Also, effective December 1, 2010, the ALRIP was amended to provide that Lucent Technologies Inc. Retirement Plan employees who were not represented by the Communications Workers of America (CWA) or the International Brotherhood of Electrical Workers (IBEW) at the date of retirement with a service or disability pension, would be transferred to the ALRIP immediately following retirement.
- On December 31, 2010, the Plan was amended retroactively to reflect the changes required to comply with the Heroes Earnings and Assistance Relief Act of 2008 (the "HEART Act").
- Effective April 1, 2011, the Plan was amended to provide a lump sum option for service based active participants.
- Effective December 1, 2011, the Plan was amended to transfer assets and liabilities for certain identified beneficiaries from the Lucent Technologies Inc. Pension Plan (LTPP) to the Plan.
- Effective June 22, 2012, the Plan was amended to provide a limited window under which certain participants who are eligible for a deferred vested benefit may elect to have their pension distribution in a lump sum.
- Effective October 1, 2012, the Plan was amended to make the Transitional Leave of Absence (TLA) optional for Deferred Vested Pensioners (DVP) who have already attained age 65. Participants can elect to either commence their DVP benefit immediately or wait until they reach service-pension eligibility through TLA.

EIN: 22-3408857 PN: 001

Schedule SB, Part V – Summary of Plan Provisions

- Effective December 1, 2013, the Plan was amended to transfer assets and liabilities of certain identified participants, alternate payees and beneficiaries ("2013 LTPP Transferees" of the Phase III transfer) from LTPP to the Plan.
- Effective September 16, 2013, modified the definition of Lawful Spouse.
- Effective January 1, 2014, eligible employees of the ALRIP, on or after January 1, 2014, will
 participate in the Cash Account Program (CAP). The CAP will provide annual pay credit equal to 6%
 of eligible pay. Pay credits will earn annual interest credits of 4%, compounded monthly.

All amendments noted above are fully reflected in this valuation. The newly reflected amendments reflected in this valuation are as follows:

- Effective November 3, 2014, the Plan was amended to provide for a one-time opportunity for eligible individuals to elect to receive a special Disability Replacement Pension benefit in lieu of continuing long-term disability benefits.
- Effective December 31, 2014, the cash-out threshold was increased to \$5,000 (effective with respect
 to distributions in connection with distribution election packages generated on or after January 1,
 2015).
- Effective December 31, 2014, the Plan was amended to eliminate the requirement that participant obtain consent of lawful spouse to elect QOSA or J&100% survivor annuity (effective for distribution election packages generated after 1/1/2015).

Plan Amendments After 2014

The following amendment was effective on the valuation date and is included for valuation purposes:

 Effective January 1, 2015, the ALRIP was amended to eliminate the qualified preretirement survivor charge for Qualified Domestic Relations Orders (QDRO).

The following amendments were effective after the valuation date of January 1, 2015 and are excluded for valuation purposes as permitted under IRS Revenue Ruling 77-2:

- Effective June 29, 2015, the ALRIP was amended to provide for a one-time voluntary Retiree Lump Sum Window ("RLSW") for certain participants, surviving annuitants, and alternate payees who were in payment status as of June 13, 2015.
- Effective October 1, 2015, the ALRIP was amended to extend the period for transfers of excess pension assets under Section 420 to December 31, 2025, to permit transfers of excess pension assets for post-retirement life insurance benefits, in addition to transfers for post-retirement health benefits, and to permit transfers of excess pension assets with respect to participants who elect to receive the value of their remaining annuity payments in a lump-sum distribution or whose remaining annuity payments are otherwise settled,
- Effective December 1, 2015, the ALRIP was amended to transfer the assets and liabilities of certain identified LTPP participants and alternate payees from LTPP to the ALRIP ("Phase IV-A Transfer").

EIN: 22-3408857 PN: 001

Schedule SB, Line 13(a) – Carryover Balance at Beginning of Current Year

The carryover balance as of 1/1/2015 of \$144,230,253 reflects the following adjustments:

- (1) The amount of \$1,111,704 [i.e. \$980,944 plus \$130,760 interest] transferred from Lucent Technologies Inc. Pension Plan (PN 002) to Alcatel-Lucent Retirement Income Plan (PN 001) as a result of the true-up for internal transfers of certain participants during 2013 (referred to as "Phase III" transfers), and
- (2) The amount of \$28,309 transferred from Lucent Technologies Inc. Retirement Plan (PN 007) to Alcatel-Lucent Retirement Income Plan (PN 001) as a result of internal plan transfers during 2014.

EIN: 22-3408857 PN: 001

Schedule SB, Part V – Summary of Plan Provisions

The following summary describes principal plan provisions assumed in calculating the cost of your pension plan.

General Information

History

The Alcatel-Lucent Retirement Income Plan ("ALRIP" or the "Plan") was established as of October 1, 1996 as a result of the restructuring of AT&T. Assets and liabilities for active, inactive, and retired participants in the AT&T Management Pension Plan ("AT&T MPP") as of that date associated with the business of Lucent Technologies Inc. pursuant to the restructuring were spun off from the AT&T MPP to the Plan. The Plan provisions as of the date of the spin-off were the same as those of the AT&T MPP as of the date of the spin-off. All prior service and compensation under the AT&T MPP were counted for benefit and eligibility purposes under the Plan. At the time of the spin-off, the Plan was called the Lucent Technologies Inc. Management Pension Plan. The Plan was later renamed the Lucent Retirement Income Plan and, still later, the Alcatel-Lucent Retirement Income Plan.

Plan Provisions

The Plan is a noncontributory defined benefit plan generally covering domestic management employees. During 2009, the Plan consisted of four distinct pension benefit programs: (1) the legacy-Lucent "Service-Based Program" (generally, for employees hired before 1999), (2) the legacy-Lucent "Account-Balance Program" (generally, for employees hired after 1998 and before 2008 and for employees of acquired companies), (3) the (frozen) plan design associated with the former AGCS Salaried Pension Plan, and (4) the (frozen) plan design associated with the former Alcatel USA, Inc. ("AUSA") Consolidated Retirement Plan. Effective December 31, 2009, benefit accruals under (1) and (2) were also frozen. The Plan provisions described herein are for the legacy-Lucent Service-Based Program and legacy-Lucent Account-Balance Program only (although, as noted, the values presented herein reflect the AGCS plan merger, the AUSA plan merger and the ADNI plan merger).

Certain participants can transfer their accumulated interest in the Plan to and from other plans covered by the Mandatory Portability Agreement (MPA), as their employment status changes. The MPA was established in response to federal legislation mandating the continued portability of certain benefits among former Bell companies subsequent to the court ordered divestiture of the former Bell system as of January 1, 1984.

In 2006, MPA eligible management employees hired by Alcatel-Lucent on or after April 1, 2004 who do not waive MPA coverage will participate in ALRIP under the service-related formula if they are either (a) eligible to retire under the prior plan at termination or (b) eligible for immediate bridging under the ALRIP.

In 2006, Plan participants who are covered under the MPA and hired by Alcatel-Lucent after 1998 but prior to April 1, 2004 will be given the option to participate under the Account Balance Program or the Service Based Program. Such employees who choose to be covered under the Service Based Program will be provided with postretirement life and health benefits consistent with other participants covered by the service-related formula.

The Alcatel USA, Inc. Consolidated Retirement Plan was merged into the ALRIP effective March 1, 2007.

EIN: 22-3408857 PN: 001

Schedule SB, Part V – Summary of Plan Provisions

Normal Retirement Age and Vesting

The Normal Retirement Age is age 65 with the completion of 5 years of vesting service. Employees with at least 5 years of vesting service are 100% vested in their pension benefit. Employees who terminate with less than 5 years of vesting service are not vested and are not entitled to any benefits under the Plan. However, all participants who were active as of December 26, 2001 are 100% vested as a result of the requirements of Section 420 of the Internal Revenue Code, in connection with the transfer of excess LRIP assets to cover retiree medical claims. All participants who were active as of December 31, 2009 are 100% vested as a result of the plan amendment freezing further benefit accruals.

Employees Hired Before 1999

Pension Amount

For a retirement or vested termination on or after October 19, 1993, but prior to January 1, 1997, the annual pension amount under LRIP was equal to item (1) below. For retirement or vested termination on or after January 1, 1997, but prior to January 1, 1998, it was equal to item (1) below, for monthly benefits paid prior to January 1, 1998, and it was equal to the greater of items (1) or (2) below for monthly benefits paid January 1, 1998, and thereafter. For retirement or vested termination on or after January 1, 1998, but prior to January 1, 1999, the annual pension amount under LRIP is equal to the greatest of items (1), (2) or (3) below. For retirement or vested termination on or after January 1, 1999, it is equal to the greatest of items (1), (2), (3) or (4) below.

- (1) The prior early retirement reduction applied to a frozen benefit of 1.6% of the sum of six-year average compensation for 1987 through 1992 times Net Credited Service as of December 31, 1992, plus total compensation for 1993 through 1997.
- (2) The prior early retirement reduction applied to a transition benefit of 1.6% of the sum of six-year average compensation for 1991 through 1996 times all Net Credited Service prior to January 1, 2001.
- (3) The current early retirement reduction applied to a 1998 benefit of 1.4% of the sum of five-year average compensation for 1993 through 1997 times Net Credited Service as of December 31, 1997, plus total compensation for 1998.
- (4) The current early retirement reduction applied to an ongoing benefit of 1.4% of the sum of five-year average compensation for 1994 through 1998 times Net Credited Service as of December 31, 1998, plus total compensation after December 31, 1998, plus an extra bonus in 1997.

Prior Early Retirement Reduction and Retirement Eligibility

Employees who meet the following age and service requirements may retire with a service pension:

| | | Minimum |
|-----|-----|-------------------------------|
| Age | _ | Years of Net Credited Service |
| 65 | and | 10 |
| 55 | and | 20 |
| 50 | and | 25 |
| Any | | 30 |
| | | |

EIN: 22-3408857 PN: 001

Schedule SB, Part V – Summary of Plan Provisions

For employees who retire with at least 30 years of Net Credited Service, the early retirement reduction is 0.25% (0.5% with less than 30 years) for each full or partial month by which the employee's age at retirement is less than 55 years.

Certain terminated vested participants may elect to receive pension benefits commencing prior to age 65 reduced on an actuarially equivalent basis.

Current Early Retirement Reduction and Retirement Eligibility

Employees may retire at age 50 or older with at least 15 years of Net Credited Service. The early retirement reduction is the product of 3% times the excess, if any, of 75 over the sum of age and Net Credited Service at retirement.

Certain terminated vested participants may elect to receive reduced pension benefits commencing prior to age 65 on an actuarially equivalent basis.

Disability Pension

An employee with at least 15 years of service who becomes totally and permanently disabled retires with a disability pension. The disability pension is not subject to early retirement reduction.

In 2002, the disability pension benefits began to be paid from the pension trust fund. Previously, these benefits were paid from Company operating funds

Payment of Annuities

The full monthly benefit is paid at the end of each month of retirement up to and including the end of the month in which the annuitant dies.

Form of Payment Options

An employee who terminates with a vested accrued benefit with a present value of \$1,000 or less, prior to attaining early retirement eligibility, will automatically receive a lump sum of that present value.

Any other employee who terminates with a vested accrued benefit prior to attaining early retirement eligibility may elect to commence receipt of pension benefits either immediately or deferred to any age up through age 65 in one of the following forms:

- Single Lump Sum of the present value of the deferred vested benefit if (in the case of an employee who is legally married) the spouse provides written notarized consent.
- Single Life Annuity if (in the case of an employee who is legally married) the spouse provides written notarized consent.
- Actuarially reduced 50% Joint and Survivor Annuity with pop-up with the spouse as a joint annuitant if the employee is legally married.

Any employee who retires on or after attaining early or normal retirement eligibility may elect to commence receipt of pension benefits immediately in one of the following forms:

EIN: 22-3408857 PN: 001

Schedule SB, Part V – Summary of Plan Provisions

- Single Life Annuity if (in the case of an employee who is legally married) the spouse provides written notarized consent.
- Actuarially reduced 50% Joint and Survivor Annuity with pop-up with the spouse as a joint annuitant if the employee is legally married.
- Actuarially reduced 75% Joint and Survivor Annuity with pop-up with the spouse as a joint annuitant if the employee is legally married.
- Actuarially reduced 100% Joint and Survivor Annuity with pop-up with the spouse as a joint annuitant
 if the employee is legally married and the spouse provides written notarized consent.
- Actuarially reduced 10 Year Certain and Life Annuity if (in the case of an employee who is legally married) the spouse provides written notarized consent.

In 2004, the charge for surviving spouse coverage for death of terminated vested participants before pension payments begin was eliminated. Also, for former employees entitled to a deferred vested pension and whose annuity start date is January 1, 1998 or later, if the spouse dies after the joint and survivor pension has commenced, payments to the participant will be increased to the original amount prior to the joint and survivor reduction.

In 2005, an employee who terminates with a vested accrued benefit with a present value of \$1,000 or less (previously \$5,000) will automatically receive a lump sum of the present value.

Effect of Prior Voluntary/Involuntary Downsizing Programs

- In 2001, an early retirement incentive program was offered to certain employees within five years of retirement eligibility. In this program age and service of the employees were increased by five years for retirement eligibility, early retirement discount and benefit accrual. Also, the participation rules were improved to allow employees to participate immediately at hire regardless of age.
- In 2001, 2002 and 2003 certain employees were involuntarily terminated and offered additional benefits they could take as a pension or a lump sum.

Death Benefits

Effective January 1, 2003, the death benefit of one year's pay at retirement was removed from the plan for retirees who retired prior to January 1, 1998. For employees retiring on or after January 1, 1998 the death benefit was removed effective January 1, 1998.

The surviving spouse of a vested active employee who dies with a term of employment of less than 15 years is awarded an automatic annuitant's pension equal to 50% of the amount the employee would have received at age 65 had the employee terminated on the date of death with a deferred vested pension and elected a 50% joint and survivor annuity. Payments to the surviving spouse begin at the time the deceased employee would have attained age 65.

EIN: 22-3408857 PN: 001

Schedule SB, Part V – Summary of Plan Provisions

In the case of a vested active employee with a term of employment at the time of death of at least 15 years, the automatic annuitant's pension commences immediately and is equal to 50% of the amount the employee would have received had such employee retired with a service pension, as of the date of death having elected a 50% joint and survivor annuity, and without any discount for early retirement.

Employees Hired After 1998 and Employees of Acquired Companies

Account Balance Plan

Employees of companies acquired by Lucent after October 1, 1996 and management employees and non represented occupational employees hired after 1998 participate under an account balance design:

(1) Pay Credits:

| <u>Age</u> | % of Previous Year's Pay |
|------------|--------------------------|
| <30 | 3.00% |
| 30-34 | 3.75% |
| 35-39 | 4.50% |
| 40-44 | 5.50% |
| 45-49 | 6.50% |
| 50-54 | 8.25% |
| 55+ | 10.00% |

- (2) Interest credits: 6.5% in 2000, 7% in 2001, 6.5% in 2002 and 4% thereafter.
- (3) Partial interest credits and pay credits will be given for the year in which an employee terminates.

After December 31, 2009, participants in the Account Balance Program are no longer credited with pay credits.

AUSA

Effective March 1, 2007, the AUSA Consolidated Retirement Plan was merged into the LRIP. Benefits for AUSA participants are currently frozen. The pension benefit under this plan has a cash balance feature.

ADN

Effective July 1, 2010, the Alcatel Data Networks Inc. Retirement Pension Plan was merged into the ALRIP. Benefits for ADN participates are currently frozen.

Plan Amendments Prior to 2015

- Effective January 1, 2008, the Plan was amended to include language to comply with PPA'06 requirements (e.g. including Joint and 75% Survivor option, new mortality and interest assumptions).
- The Plan is closed to new entrants on or after January 1, 2008.

EIN: 22-3408857 PN: 001

Schedule SB, Part V – Summary of Plan Provisions

- Effective January 1, 2008, employees covered under the Account Balance Program of the Plan will be fully vested in their pension benefits in three years.
- Effective November 1, 2008, the Plan was amended to permit former AUSA employees who
 terminate employment for any reason other than retirement, death or disability to request an
 immediate distribution of their deferred vested pension benefit at any time following such termination
 of employment.
- In 2009, the Plan was amended to include retroactive plan amendments required by IRS in connection with the favorable determination letter (i.e. GUST submission, Compliance statement).
- Effective May 1, 2009, the Plan was amended to increase the survivor benefit for active employees
 with a service based pension benefit who have at least 15 years of service or are retirement eligible
 to a Joint and 100% survivor benefit.
- On November 30, 2009, the Plan was amended, retroactive to January 1, 2009 to allow the nonspousal beneficiary to rollover a distribution to a retirement account.
- Effective December 31, 2009, the Plan was amended to freeze all benefit accruals and to fully vest all actives.
- Effective July 1, 2010, the Alcatel Data Networks (ADN) Plan was merged with and into the Plan, with the Plan being the surviving Plan.
- Effective December 1, 2010, a certain group of participants from the Lucent Technologies Inc. Pension Plan was transferred into the ALRIP. Also, effective December 1, 2010, the ALRIP was amended to provide that Lucent Technologies Inc. Retirement Plan employees who were not represented by the Communications Workers of America (CWA) or the International Brotherhood of Electrical Workers (IBEW) at the date of retirement with a service or disability pension, would be transferred to the ALRIP immediately following retirement.
- On December 31, 2010, the Plan was amended retroactively to reflect the changes required to comply with the Heroes Earnings and Assistance Relief Act of 2008 (the "HEART Act").
- Effective April 1, 2011, the Plan was amended to provide a lump sum option for service based active participants.
- Effective December 1, 2011, the Plan was amended to transfer assets and liabilities for certain identified beneficiaries from the Lucent Technologies Inc. Pension Plan (LTPP) to the Plan.
- Effective June 22, 2012, the Plan was amended to provide a limited window under which certain participants who are eligible for a deferred vested benefit may elect to have their pension distribution in a lump sum.
- Effective October 1, 2012, the Plan was amended to make the Transitional Leave of Absence (TLA) optional for Deferred Vested Pensioners (DVP) who have already attained age 65. Participants can elect to either commence their DVP benefit immediately or wait until they reach service-pension eligibility through TLA.

EIN: 22-3408857 PN: 001

Schedule SB, Part V – Summary of Plan Provisions

- Effective December 1, 2013, the Plan was amended to transfer assets and liabilities of certain identified participants, alternate payees and beneficiaries ("2013 LTPP Transferees" of the Phase III transfer) from LTPP to the Plan.
- Effective September 16, 2013, modified the definition of Lawful Spouse.
- Effective January 1, 2014, eligible employees of the ALRIP, on or after January 1, 2014, will
 participate in the Cash Account Program (CAP). The CAP will provide annual pay credit equal to 6%
 of eligible pay. Pay credits will earn annual interest credits of 4%, compounded monthly.

All amendments noted above are fully reflected in this valuation. The newly reflected amendments reflected in this valuation are as follows:

- Effective November 3, 2014, the Plan was amended to provide for a one-time opportunity for eligible individuals to elect to receive a special Disability Replacement Pension benefit in lieu of continuing long-term disability benefits.
- Effective December 31, 2014, the cash-out threshold was increased to \$5,000 (effective with respect
 to distributions in connection with distribution election packages generated on or after January 1,
 2015).
- Effective December 31, 2014, the Plan was amended to eliminate the requirement that participant obtain consent of lawful spouse to elect QOSA or J&100% survivor annuity (effective for distribution election packages generated after 1/1/2015).

Plan Amendments After 2014

The following amendment was effective on the valuation date and is included for valuation purposes:

 Effective January 1, 2015, the ALRIP was amended to eliminate the qualified preretirement survivor charge for Qualified Domestic Relations Orders (QDRO).

The following amendments were effective after the valuation date of January 1, 2015 and are excluded for valuation purposes as permitted under IRS Revenue Ruling 77-2:

- Effective June 29, 2015, the ALRIP was amended to provide for a one-time voluntary Retiree Lump Sum Window ("RLSW") for certain participants, surviving annuitants, and alternate payees who were in payment status as of June 13, 2015.
- Effective October 1, 2015, the ALRIP was amended to extend the period for transfers of excess pension assets under Section 420 to December 31, 2025, to permit transfers of excess pension assets for post-retirement life insurance benefits, in addition to transfers for post-retirement health benefits, and to permit transfers of excess pension assets with respect to participants who elect to receive the value of their remaining annuity payments in a lump-sum distribution or whose remaining annuity payments are otherwise settled,
- Effective December 1, 2015, the ALRIP was amended to transfer the assets and liabilities of certain identified LTPP participants and alternate payees from LTPP to the ALRIP ("Phase IV-A Transfer").
